EXPLOR UT
DISCOVER WHAT’S NEXT

Saturday, March 3, 2018 • 11 a.m. to 5 p.m.

Everyone is welcome. Come by yourself or with a group.
FREE. No registration required.
exploreut.utexas.edu

#EXPLOREUT
Welcome to Explore UT!

As the flagship university of Texas, The University of Texas at Austin serves the state and nation with life-changing educational opportunities for students, groundbreaking research and transformative health care solutions.

We exist to benefit the public, so once a year we welcome families, students and teachers from across Texas to visit our university. We call this day “Explore UT.”

My hope is that everyone who comes to visit ... will leave our campus inspired by all that UT has to offer.

Parents, teachers and community members may also partake in campus tours, earn professional development credit and explore UT’s museums and collections.

My hope is that everyone who comes to visit and experience what life is like for a Longhorn will leave our campus inspired by all that UT has to offer.

Hook ‘em!

Gregory L. Fenves, President

What makes you wonder? What have you always wanted to learn? What do you find most interesting? Who do you want to be?

However you answer those questions, Explore UT was created just for you. More than 400 exhibits and programs will get you wondering, learning and discovering along with us. Young or old, student or seasoned professional, everyone will find something that fascinates, informs, explains and inspires.

Interact with amazing exhibits and cultural works that delight all of the senses and push past the boundaries of what you already know. Discover groundbreaking research into dinosaurs, advanced robots, diseases or distant planets, and meet the innovative people who are creating the future. Visit the many hands-on activities that will engage your imagination.

Get to know us. UT Austin is a world-class college campus. See what is possible today, what is coming tomorrow, and how we are changing the world.

Explore UT and explore the possibilities for your own future.

On behalf of the School of Undergraduate Studies and The University of Texas at Austin, welcome!

Brent L. Iverson, 2018 Explore UT Chair
Dean, School of Undergraduate Studies

Important Safety Information

UT has a warning system to alert those on campus of a potential threat from severe weather. If you hear a continuous siren followed by verbal commands, please seek shelter in the nearest building.

The University of Texas at Austin is not responsible for accidents that may occur while guests are on campus participating in Explore UT. Participants should assess the level of skills that may be required and any personal risk before engaging in specific activities with potential for harm or injury. By participating in these activities, the participant assumes all risk of injury.

Emergency Services

If you experience a medical emergency on campus, please call 9-1-1. First Aid services are available for treatment of minor injuries at the locations indicated on the event map.

Special Thanks

Explore UT is sponsored by the Office of the President and receives support from other partners on The University of Texas at Austin campus, including the University Development Office and the Division of Diversity and Community Engagement.

Lost or Missing Children

To report a lost child, please call the Lost Child Hotline at (512) 232-7992 to provide information.
Areas of Interest

We’ve grouped more than 400 activities across the campus into six broad areas of interest. Your Explore UT map is color-coded to help you find what you’re most interested in.

**ARTS, DESIGN AND MEDIA**
Architecture, communication and fine arts

**BUSINESS, CULTURE AND EDUCATION**
Business, education, information and liberal arts

**ENGINEERING**
All engineering disciplines

**LONGHORN LIFE**
The UT community

**PUBLIC SERVICE**
Law, public affairs and social work

**SCIENCE**
Geosciences, medicine, natural sciences, nursing and pharmacy

Age Groups and Special Interests

Explore UT has something for everyone to discover and enjoy. The symbols below will help parents, teachers and future UT students to identify programs suited to their unique age group or interests.

- **K** 4–7 Early Learners: Children ages 4–7 or who are in pre-kindergarten programs through the 2nd grade.
- **K** 8–11 Intermediate Learners: Children ages 8–11 or who are in grades 3 through 6.
- **K** Under 12 Children Under 12: Children under the age of 12.
- **T** Teens: Middle and high school students ages 13–17.
- **A** Adults: Young adult and adult audiences seeking advanced content programs (lectures, historical exhibits, etc).
- **Prospective Students**: Prospective students and their parents seeking information on life as a college student, including admissions, financial aid, career options and residence hall tours.
- **Teachers**: Teachers seeking professional development credit.

Rain Plan

Explore UT takes place, rain or shine. Rain locations can be found by referencing the symbol in the program listing. Outdoor events will resume as weather permits.

Sample Program Listing

1–1:40 p.m.  

**Area of Interest** indicated by color

**College of Liberal Arts** sponsoring department

**Shakespeare at Winedale** program title

Program repeats at noon and 3 p.m. repeat information

**CAL–CALHOUN HALL, COURTYARD** location (see map, page 22)

**MEZ–Mezes Hall, 1.306** rain location

Students from the Shakespeare at Winedale Program program will perform scenes from Shakespeare’s plays.

Age groups and special interests (see above)
Early Bird Activities

Explore UT begins at 11 a.m., but there are numerous activities available for those who may want to get an early start to their day. Several libraries and museums will open prior to the official start of Explore UT and are listed below along with other early bird activities.

9 a.m. to 5 p.m.

Lyndon B. Johnson Library and Museum Exhibits
LBJ – LYNDON B. JOHNSON LIBRARY AND MUSEUM
The LBJ Library will be open during Explore UT with free admission. Exhibits include interactive displays, videos, images and artifacts that will guide visitors through the life and legacy of the 36th President of the United States, Lyndon Baines Johnson and his wife, Lady Bird Johnson. Features of the library also include access to President Johnson's private telephone conversations and interactive exhibits on the Vietnam War and Six Day War that detail the President’s decision-making processes. You’ll be able to tour a replica of the Oval Office and see artifacts from President Johnson’s time in the White House.
LBJLibrary.org

Presidential Scavenger Hunt
LBJ – LYNDON B. JOHNSON LIBRARY AND MUSEUM
Participate in an LBJ Library and campus-wide Presidential Scavenger Hunt. Clues can be found inside the library or on our website at LBJLibrary.org. Post photos of your findings on Facebook and Instagram using the hashtag #ExploreUTLBJ.

THE UNIVERSITY OF TEXAS LIBRARIES
Perry-Castañeda Library Open House
PCL – PERRY-CASTAÑEDA LIBRARY
The Perry-Castañeda Library (PCL) is largest of UT’s libraries with print and electronic books, journals, databases, maps and expertise to assist with research and learning. Visit the library to learn more about this unique campus resource. www.lib.utexas.edu/pcl

Texas Memorial Museum Exhibits
TMM – TEXAS MEMORIAL MUSEUM
Explore the Texas Memorial Museum’s ongoing exhibits as well as other fun activities scheduled throughout the day. Current exhibits include:

• DEEP TIME IN TEXAS
Explore our Hall of Geology and Paleontology featuring fossil dinosaurs and other prehistoric creatures, meteorites and rocks. Stop by the Paleo Lab to talk with a paleontologist while seeing how fossils are properly prepared, catalogued and studied.

• HALL OF TEXAS WILDLIFE
Join us to see exhibits that highlight wildlife in numerous regions of Texas. You’ll be able to experience the regions through dioramas that include mounted specimens of Texas birds, mammals, reptiles and amphibians.

9:30 a.m. to 5 p.m.

Bleed Orange, Live Green Walking Tour
OFFICE OF SUSTAINABILITY
STUDENT ACTIVITY CENTER (SAC) INFORMATION TABLE ON SPEEDWAY MALL
UT is home to one of the most efficient power plants in the US, millions of square feet of LEED Gold architecture, a restored natural corridor in Waller Creek and the campus’ Office of Sustainability coordinates numerous programs to reduce the use of landfills. See how UT lives green on this self-guided tour. Location highlights and tour information available at: greentour.utexas.edu

10 a.m. to 4 p.m.

Residence Hall Tours
VARIOUS LOCATIONS ON CAMPUS
The residence halls listed below will offer the guided tours of their facilities so Explore UT visitors can get a glimpse of life in a residence hall. These tours provide a fun way to take a behind the scenes look at life on campus. A description of each residence hall is available on pages 38-39. You can find the location for each on the Explore UT map by using the three letter building identifier.

ALMETRIS DUREN RESIDENCE HALL (ADH)
HONORS QUAD RESIDENCE HALL (CRD)
JESTER WEST RESIDENCE HALL (JES)
KINSOLVING RESIDENCE HALL (KIN)
SAN JACINTO RESIDENCE HALL (SJH)
TIMED EVENTS
These events start and end at the listed times. Each event, even if it is repeated, has its own listing.

11–11:40 a.m.

MOODY COLLEGE OF COMMUNICATION
Comm for a Chat: A Panel Discussion with Moody Communication Students
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.206
Join current Moody students for an interactive lecture at which prospective students and their parents can ask questions about specific majors, study abroad programs and student life. The discussion will evolve from the questions asked by the audience.

MOODY COLLEGE OF COMMUNICATION
Comm Get Informed: Learn about Majors in the Moody College of Communication
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.204
Join students from the Communication Council to learn more about options for majoring in communication in this fun, interactive lecture. It might turn out to be the perfect discussion for students trying to decide what they want to study in college.

MOODY COLLEGE OF COMMUNICATION
Creating Virtual Worlds
Program repeats at noon, 2 and 3 p.m.
CBM - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.114
Join Lecturer Ben Bays to learn about visual design and interactive storytelling through the use of a game engine. Create interactive virtual worlds using terrain painting, CG models, particle systems, simulated physics and 3 dimensional soundscapes.

MOODY COLLEGE OF COMMUNICATION
Films You Can Make at UT
Program repeats at noon
CBM - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.122, STUDIO 4C
Radio-Television-Film students produce all types of films: documentaries, narratives and animations. Join Emmy award-winning faculty member, Paul Stekler, to screen a few films and discuss how they are produced and the processes students use to make them.

MOODY COLLEGE OF COMMUNICATION
I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
Come learn how creative advertising comes to life, pitch ideas as a group to create the next great ad campaign, and then see how you stack up against the pros of the industry.

MOODY COLLEGE OF COMMUNICATION
Mind as Muscle: How to Think About Thinking
Program repeats at noon
BMC - BELO CENTER FOR NEW MEDIA, 4.212
The best way to learn, score well on tests, and get good grades is to treat your mind as a muscle that improves with exercise. Professor Matt McGlone will share 3 simple strategies to create and maintain a “mindset” for optimal learning.

MOODY COLLEGE OF COMMUNICATION
Texas Student Media Tour: The Daily Texan, Cactus Yearbook and Texas Travesty
Program repeats at noon, 1, 2, 3 and 4 p.m.
HSM - HEARST STUDENT MEDIA BUILDING, 2.122
Join us for a tour of the newsroom and photo studio of the student-run newspaper, The Daily Texan. See the offices of the Cactus yearbook and the student-run humor magazine, the Texas Travesty, and experience interactive lectures and hands-on activities.

MOODY COLLEGE OF COMMUNICATION
The Making of a Spokespuppet
Program repeats at 1 p.m.
CBM - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.126
Have you ever wanted to change the world, maybe just extend summer vacation and sell more lemonade? In this hands-on workshop, you will learn what it takes to be a persuasive communicator by creating the ideal spokespuppet for your cause or brand.

SCHOOL OF ARCHITECTURE
Architectural Origami
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, 4.120
Join members of Ampersand, an Interior Design student organization, to explore origami, the art of folding paper into creative designs. You’ll be provided with instructions to create an “architectural” origami piece to take home.

SCHOOL OF ARCHITECTURE
Material Matters: Architectural Materials Lab
Program repeats at 1 and 3 p.m.
WMB - WEST MALL OFFICE BUILDING, 3.102
Tour the collection of over 28,000 materials in the University Co-op Architectural Materials Lab. You’ll discover futuristic materials, exciting lighting fixtures, and sustainable materials. New tours will start at the top of every hour.

SCHOOL OF ARCHITECTURE
Spaghetti Structures
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
Join members of the Undergraduate Architecture Student Council for this competition to see who can build the tallest structure out of dry spaghetti noodles and marshmallows. Have fun while learning the basic principles of building structures.

COLLEGE OF EDUCATION
Mentoring Matters: How Project MALES Works with Students of Color to Promote Success
Program repeats at noon
SZB - GEORGE I. SÁNCHEZ BUILDING, 330
Project MALES (Mentoring to Achieve Latino Educational Success) is a program in UT’s Division of Diversity and Community Engagement. Join us to learn how we engage students in mentor programs to combat achievement issues Latino males face in education.

COLLEGE OF EDUCATION
Unlock Your Spine and Roll Out a New You
Program repeats at 1 p.m.
SZB - GEORGE I. SÁNCHEZ BUILDING, 2ND FLOOR, MASSEY HONOR HALL
Improve your posture and loosen tight muscles through guided exercises in stretching and utilizing a foam roller. You’ll learn about the benefits of good posture and ways to help prevent injuries.

LONGHORN LIFE    |    PUBLIC SERVICE    |    SCIENCE    |    THE UNIVERSITY OF TEXAS AT AUSTIN    3
(continued)

11–11:40 a.m.

COLLEGE OF LIBERAL ARTS

Ancient Medicine in the Roman Empire
Program repeats at noon, 1 and 2 p.m.
WAG - WAGGENER HALL, 116
How do you use a staphylagra on a patient? Do beavers' testicles have a medicinal use? Is there a treatment for love sickness? Learn all this and more in a hands-on presentation by Dr. Todd Curtis about the Roman Empire's approach to healing.

COLLEGE OF LIBERAL ARTS

Connecting Music with Psychology
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.104
Join professor of psychology, Michael Domjan for a series of short discussions and musical demonstrations on a Tertis viola to learn how music and psychology are related. Listen to wonderful music and learn some psychology along the way.

COLLEGE OF LIBERAL ARTS

Introducing the Texas German
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.108
Join Professors Marc Pierce and James Kearney for an introduction to one of the most influential cultural groups in Texas: the Texas Germans. Learn their language, literature, as well as their historical and cultural impact on the Lone Star State.

COLLEGE OF LIBERAL ARTS

Karma, Cows, Caves and Empire:
Evolution of Language and Religion in Ancient India
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.106
Explore the evolution of Sanskrit, the language of ancient texts in the Vedas and verse of the Bhagavad Gita, and Pali, the language Buddha himself spoke. Decipher ancient Indian cave inscriptions and see how the spread of religion and empire intertwined.

COLLEGE OF LIBERAL ARTS

Learn German in 40 Minutes
Program repeats at noon, 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.128
Anyone can learn a foreign language, even in a short period of time. Join Professor Kerstin Somerholter and other German language instructors for a fun and interactive class to see how much German you can master in 40 minutes. Auf Wiedersehen!

COLLEGE OF LIBERAL ARTS

Learn Some Yiddish History and Classic Yiddish Phrases
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.126
Many familiar words, such as "shlep" and "shlimiel," are from Yiddish, the language of the Eastern European Jews and most Jews living in the U.S. Join Professor Itzik Gottesman to learn the history of Yiddish as well as some classic Yiddish phrases.

COLLEGE OF LIBERAL ARTS

Playing Shakespeare
Program repeats at noon
PAR - PARLIN HALL, COURTYARD
Experience the magic of the Shakespeare at Winedale program through this on-your-feet workshop. You can become a Shakespearean player by putting on a costume, grabbing a script and recreating a character from one of William Shakespeare's plays.

COLLEGE OF LIBERAL ARTS

Poetry Becomes Music: Mugham
from Azerbaijan by Aqil Suleymanov
Program repeats at 1 and 3 p.m.
WAG - WAGGENER HALL, 101
Much as the Caucasus Mountains crash into the Caspian Sea in Azerbaijan, poetry and music collide and merge into Mugham, a unique traditional art. Aqil Suleymanov, from the Qarabag Ensemble, will share this amazing art and the story behind it.

COLLEGE OF LIBERAL ARTS

Printing on a 19th-Century Iron Hand Press
Program repeats at noon
CAL - CALHOUN HALL, 13
Join Professor Michael Winship to learn more about the process of setting movable type by hand. You'll have the opportunity to complete the process and print a broadside using an authentic 19th-century iron hand press.

COLLEGE OF LIBERAL ARTS

Secret Scriptures: The Missing Books of the Bible
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.302E
Early Christians produced a vast number of gospels, yet only four of these were included in the Bible. Join us to explore the content of the gospels that were left out. Learn about some fascinating early Christian writings, and you might even win a prize.

COLLEGE OF LIBERAL ARTS

The Long March of Fidel Castro
Program repeats at 2 p.m.
GAR - GARRISON HALL, 1.126
Join Latin America historian Jonathan Brown to learn how in 1959, the revolutionary Castro came to power in Cuba under the radar of the Eisenhower Administration and CIA. Spoiler alert: Castro was not a communist and had the support of the middle class.

COLLEGE OF LIBERAL ARTS

The Traditions and Practice of Making Paper Flowers
Program repeats at noon
GWB - GORDON-WHITE BUILDING, 2.206
Discover the history and practice of making crepe and tissue paper flowers, a tradition well known in Mexico and in communities of Mexican heritage in the U.S. Then, test your skills at crafting a colorful paper flower to take home with you.
MCCombs School of Business
Brand Yourself
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCombs School of Business, Hall of Honors
Brand identities are an important part of doing business. Join us to learn how to market yourself by developing and creating a brand for your future lemonade stand business.

MCCombs School of Business
Dress for Success
Program repeats at 3 p.m.
GSB - Graduate School of Business Building, Atrium
Project Runway meets the business world with this fun fashion show featuring the 'dos and 'don'ts for dressing in the business world, from attire for a formal interview to 'casual Friday' dress.

MCCombs School of Business
Fit to Be Tied
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCombs School of Business, Hall of Honors
There is no better way to make a great first impression in business than with a great necktie or business card. Design your own cardboard necktie or business card and learn how to dress to impress so you'll knock their socks off in your next interview.

MCCombs School of Business
How Money Works: The Important Lessons from Finance
Program repeats at noon
GSB - Graduate School of Business Building, 2.120
Join Professor Will Way to learn how the lessons of finance are both timely and valuable lessons of what not to do when interviewing for college or a job. You'll learn the interview practices. You'll also learn the best 'dos' and 'don'ts' for dressing in the business world and what it means to the future of engineering at UT.

MCCombs School of Business
Interview Like A Pro
Program repeats at 2 p.m.
CBA - MCCombs School of Business, Atrium
Discover what it takes to interview like a professional. Join us to watch mock interviews and pick up on the best interviewing practices. You'll also learn the valuable lessons of what not to do when interviewing for college or a job.

MCCombs School of Business
The Price is Right
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCombs School of Business, Hall of Honors
Test your skills and luck by playing our version of The Price is Right. Learn the importance of correct product pricing by guessing the price of everyday items from the grocery store. Successful guesses will win you a prize.

MCCombs School of Business
The Problem with Combining People and Money
Program repeats at noon and 1 p.m.
GSB - Graduate School of Business Building, 2.124
Finance focuses on valuing investments in risky markets, an imperfect process that involves the quantitative analysis of risk. Join Dr. Robert Duvic for a discussion on how Gaussian probability analysis and inductive reasoning may lead investors astray.

MCCombs School of Business
Where in the World Will You Land?
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCombs School of Business, Hall of Honors
Take a blind spin to see where you might land in this global adaptation of Pin the Tail on the Donkey. Once you've landed, you'll learn a few fun facts about that country and can use your artistic abilities to color its flag.

Cockrell School of Engineering
Cockrell School Technology and Traditions Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - Engineering Education and Research Center, 2nd Floor Lobby
Join members of the Student Engineering Council to explore the technology and traditions of the Cockrell School. Tour the new engineering complex to get the inside scoop on our most recent building and what it means to the future of engineering at UT.

Cockrell School of Engineering
Print-A-Cookie: Exploring 3-D Printing Technology
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - Robert Lee Moore Hall, 7114
Join students in the Graduate Engineering Council to see how an "icing printer" can print baked goodies you can actually eat. Devour a cookie while learning how 3-D printing technology is used in interdisciplinary applications of additive manufacturing.

Cockrell School of Engineering
What to Expect Now That You’ve Been Admitted to the Cockrell School of Engineering
EER - Engineering Education and Research Center, 0.904, Mulva Auditorium
High school students already admitted to the Cockrell School for the 2018 fall semester are invited to this information session with school advisors. We’ll answer questions and help you discover the next steps for a successful transition to UT.

Cockrell School of Engineering: Aerospace
Aerospace Engineering Prospective Student Session for 9th, 10th and 11th Graders
WRW - W. R. Woolrich Laboratories, 102
Discover the opportunities available to students majoring in Aerospace Engineering including numerous career paths in the field. An academic advisor and current students will be available to help you learn more about our program. Space is limited.

Cockrell School of Engineering: Aerospace
Balloon Space Racers
Program repeats at noon, 1, 2 and 3 p.m.
WRW - W. R. Woolrich Laboratories, 3rd Floor Hallway
Test your engineering skills and become a rocket scientist for the day. Join members of Sigma Gamma Tau Aerospace Engineering Honor Society to engineer and build a balloon shuttle that you can enter in a race to the moon. Space is limited.

Cockrell School of Engineering: Aerospace
Building a Longhorn Rocket
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W. R. Woolrich Laboratories, 113
Join members of UT's Longhorn Rocketry Association to assemble model rocket kits and build your own longhorn rocket. Space is limited. Tickets are required and will be distributed fifteen minutes prior the start of each session.

Cockrell School of Engineering: Aerospace
Cognitive Interaction with Humanoid Robots: Human-Centered Robotics Lab Tour
Program repeats at noon
WRW - W. R. Woolrich Laboratories, 208
See how humanoid robots are being made and discover the assistive interaction robots can have within our society. Explore which internal parts walking robots use for dynamic balancing and learn how students are designing actuators to power robot muscles.

Cockrell School of Engineering: Aerospace
Designing and Testing Super Airplanes
Program repeats at noon, 1 and 2 p.m.
WRW - W. R. Woolrich Laboratories, 4th Floor Hallway
Join student members of the American Institute of Aeronautics and Astronautics to test your skills as an engineer and learn the basic science of air travel. Choose or create a design, build an airplane, and compete with others by flying it through a hoop.
COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
Engineering Devices for the Future of Health Care: The Bio-Integrated Electronics Lab
Program repeats at noon
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 7632 AND 7634
Tour Dr. Nanshu Lu’s lab to explore innovative medical devices she and her students are developing using stretchable and bio-integrated electronics. See wearable motion sensors and EMG tattoos, tattoos with ultra thin electronic sensors. Space is limited.

COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
Unmanned Aerial Vehicle Showcase
Program repeats at 1, 2 and 3 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 208
Development of unmanned aerial vehicles is one of the fastest growing fields in the technology industry. Visit the Air Systems Laboratory to learn about drone electronics, autopilot software, and pilot our flight simulators in the lab. Space is limited.

COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
U-Tonomy: Drones That Fly Themselves
Program repeats at 1, 2 and 3 p.m.
WRW - W. R. Woolrich Laboratories, Roof (Access through East Stairwell)
WRW - W. R. Woolrich Laboratories, 208
Join aerospace engineering research labs to see quadcopter drones in action. Learn about the basics of flight, autonomy, and the world-changing applications of aerial robotics. Space is limited.

COCKRELL SCHOOL OF ENGINEERING: BIOMEDICAL
Fun with Optics
Program repeats at noon and 1 p.m.
BME - BIOMEDICAL ENGINEERING BUILDING, 3.204, SEMINAR ROOM
See fun, understandable demonstrations illustrating different properties of light. Hands-on activities will allow students to make objects bend or disappear and much more. Space is limited with tickets distributed 20 minutes prior to the event.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Chemical Engineers and Science Demonstrations: Liquid Nitrogen Marshmallows and More
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
Join members of the Chemical Engineering Graduate Leadership Council to learn more about chemical engineering and science. Experience the effect of liquid nitrogen on marshmallows, make slime, design colorful surface tension, and test pH levels.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Chemical Engineers and Science Tricks: Elephant Toothpaste and Frozen Flowers
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, PLAZA
Join students with the American Institute of Chemical Engineers as they demonstrate the power of chemistry. You’ll experience gas expansion to make “elephant toothpaste,” exploding bottles, shattering roses and learn more about engineering in the process.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Polymer Secrets: Playing with Plastic
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.218
Learn the cool secrets of polymer properties and witness amazing tricks using common items such as nylon rope and diapers. Have fun making slime or gavison snakes and you’ll leave with a greater understanding of polymers and chemical engineering.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL
Civil, Architectural and Environmental Engineering for 9th, 10th and 11th Graders
ECJ - ERNEST COCKRELL JR. HALL, 1.204
Join us to learn about the career and research opportunities in Civil, Architectural and Environmental engineering. We’ll share information on degree programs, student organizations and study abroad options available through the department.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER
LED Butterflies
Program repeats at noon, 1, 2 and 3 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.824 AND 0.825
Light up the room with your own foam butterfly while learning about circuits from student members of the Women in Electrical and Computer Engineering program. Decorate your butterfly using light emitting diodes (LEDs) and discover what makes them work.

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Clean Energy for a Cleaner Tomorrow
Program repeats at noon
ETC - ENGINEERING TEACHING CENTER II, 9.130
Join Professor Arumugam Manthiram to explore how alternative, sustainable and clean energy technologies can address the world’s growing need for clean energy. He’ll also share cutting-edge research efforts in fuel cells and high-energy density batteries.

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Flame On: Ignition Happens
Program repeats at 1 and 3 p.m.
ETC - ENGINEERING TEACHING CENTER II, PLAZA
Join Professor Ofoide Ezekoye and the Society of Fire Protection Engineers to discover how engineers save lives and help make our world safer. Explore fire protection in an “on fire” presentation of ignition and how flames spread on different materials.

ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
Join American Nuclear Society students for this fun simulation of a nuclear fission chain reaction using an amazing explosion of mousetraps and ping pong balls. Young explorers can learn about nuclear energy by “operating” a hands-on LEGO nuclear reactor.

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Mechanical Engineering Prospective Student Information Session
ETC - ENGINEERING TEACHING CENTER II, 2.108
Prospective students interested in applying to the Mechanical Engineering Department, along with those who have already been admitted, are invited to join department representatives for an informal question and answer session. Parents are also welcome.

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS
Cupcake Coring
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7.116
Explore earth, geology and petroleum engineering through a sticky, yummy cupcake coring activity with students from the Society of Petroleum Engineers and Women in Petroleum and Geosystems Engineering. Sessions limited to 30 participants.
COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Jello-Fracking and Twinkie Drilling
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.220

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

The Magic of Producing Petroleum
Program repeats at 1 and 2 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.210
Discover the amazing process involved in finding petroleum and bringing it to the surface for processing. This demonstration and lecture by Professor Larry Lake will provide a glimpse into the magic and expertise involved.

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

UT Austin’s Pumping Oil Well
Program repeats at 1 and 3 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.502
Join us to discover how oil gets from miles deep in the Earth to the surface of the ground. A 3-story model of an oil-producing well, including transparent pipe, allows you to watch oil on its journey from underground to the surface. Limited to 10 people.

DIVISION OF DIVERSITY AND COMMUNITY ENGAGEMENT

Life as a College Student
Program repeats at 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.102
Explore the daily life of an average college student in this workshop designed to provide advice for prospective college students on how to stay engaged socially and academically as well as strategies for building a successful college career.

DIVISION OF DIVERSITY AND COMMUNITY ENGAGEMENT

Paying for College: Scholarships, Loans, Grants and Work
Program repeats at 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.112
Paying for college can be a challenge. Join us for a workshop designed to explore multiple ways you can pay for college while minimizing your cost of living and debt. We’ll discuss how to find balance between living life and paying for your education.

SCHOOL OF UNDERGRADUATE STUDIES

Superhero Boot Camp: Undergraduate Studies Edition
Program repeats at noon
MAI - MAIN BUILDING, TOWER MEMORIAL GARDEN TURTLE POND
Join members of the Undergraduate Studies Student Council for this fun and interactive training to become a superhero. You’ll learn how your special gifts and superpowers could influence what you will study in college.

UNIVERSITY HOUSING AND DINING

Living Learning Communities
Program repeats at 2 p.m.
ADH - ALMETRIS DUREN RESIDENCE HALL, RIVERS ROOM
Learn about specialized on-campus housing communities that integrate academic and social learning. You’ll discover how students share holistic education opportunities, including faculty and staff involvement, within these living learning communities.

Speedway Mall Festival

The Speedway Mall is undergoing a transformation to become a vital center to life on the campus and is transitioning from a street into a pedestrian friendly walkway from Martin Luther King, Jr. Boulevard to Dean Keeton Street. While construction may provide a few obstacles, the Speedway Mall will be a center of unique activities during Explore UT.

Visitors to the festival can learn from public health and fire safety demonstrations and scale the ROTC climbing wall. The location is identified by the flag symbol on the Explore UT map. Stop by and enjoy the Speedway Mall Festival as you make your way across campus.
TIMED EVENTS

VISITOR CENTER

Campus Walking Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
BARBARA JORDAN STATURE, CORNER OF 24TH STREET AND WHITIS AVENUE
Take a student-led tour of campus to learn about our unique history, culture and resources. A current UT student will serve as your tour guide and share experiences about life as a Longhorn. Comfortable walking shoes are suggested.

LBJ SCHOOL OF PUBLIC AFFAIRS

Kid Candidate: Democracy for All Ages
Program repeats at noon and 1 p.m.
SRH - SID RICHARDSON HALL, 1ST FLOOR LOBBY
Stop by for an inside look at what it takes to run for all levels of public office. Kids of all ages can choose to run for any public office and then write their best and most persuasive campaign slogan. All entries will be posted to the LBJ slogan wall.

SCHOOL OF LAW

Classroom Experience: Mock Law School Class
TNH - TOWNES HALL, 2.137
Have you ever thought about going to law school? Join Assistant Dean for Student Affairs Elizabeth Bangs for a mock "trial" of a Law School class and to learn what life is like as a law student.

STEVE HICKS SCHOOL OF SOCIAL WORK

Social Work Research: Exploration That Changes Lives
Program repeats at noon, 1 and 2 p.m.
LBJ - LYNDON B. JOHNSON LIBRARY, FOUNTAIN COURTYARD
SSW - School of Social Work Building, Lobby
A person’s health can be impacted by numerous societal factors including where we are born, the neighborhood we live in or the schools children attend. Learn how research in the field of social work can help Americans live healthier lives.

COLLEGE OF NATURAL SCIENCES

Not So Math
POB - PETER O’DONNELL JR. BUILDING, 2.302
Most mathematical ideas are simple and elegant but often we confuse the ideas with the mathematical language. Join Dr. Pedro Morales from the Mathematics Department to discover ideas about math that will be explained in an insightful, ‘not so math’ way.

COLLEGE OF NATURAL SCIENCES

The Expansion of the Universe Through the Eye of Texas
SAC - STUDENT ACTIVITY CENTER, 2.302
Join Professor Karl Gebhardt to get the latest information on the expansion of the universe. Learn about UT’s major research project, the Hobby-Eberly Telescope Dark Energy Experiment, which is working to measure the expansion of the universe.

COLLEGE OF NATURAL SCIENCES

The Microbe War Within Us: How to Win the War and Stay Well
WEL - ROBERT A. WELCH HALL, 2.122
Join Dr. Leanne Field for a discussion of the ancient conflict between infectious microorganisms and the human immune system. She’ll provide an overview of respiratory tract diseases and provide common sense tips on how to win the war with microbes.

COLLEGE OF NATURAL SCIENCES: COMPUTER SCIENCE

The Computer Science Roadshow: Computer Science Experience for K-6th Graders
Program repeats at 3 p.m.
GDC - BILL AND MELINDA GATES COMPUTER SCIENCE COMPLEX AND DELL COMPUTER SCIENCE HALL, 2.410
Join us to explore and learn about the world of computer science with the Computer Science Roadshow. You’ll discover how computer science can provide tools to help you to explore new ideas and possibly create and build the next big thing.

COLLEGE OF PHARMACY

Hogwarts Jungle Potions Class
Program repeats at noon, 1, 2 and 3 p.m.
PHR - PHARMACY BUILDING, 3.110
Even those not admitted to Hogwarts School of Witchcraft and Wizardry can learn how medicines are prepared and create your own pharmaceutical products. Tickets are required and may be picked at 10:30 a.m. for sessions 1, 2; 12:30 p.m. for sessions 3 - 5.

COLLEGE OF PHARMACY

On the Trail of the Pharm.D.: A Trek Towards Excellence
Program repeats at 1 p.m.
PHR - PHARMACY BUILDING, 2.110
Learn about the application process, course and curriculum requirements for those interested in pursuing a Pharm. D. degree. You’ll discover numerous career opportunities for those with degrees in pharmacy and make sure your trek is on track.

COLLEGE OF NATURAL SCIENCES

The Microbe War Within Us: How to Win the War and Stay Well
WEL - ROBERT A. WELCH HALL, 2.122
Join Dr. Leanne Field for a discussion of the ancient conflict between infectious microorganisms and the human immune system. She’ll provide an overview of respiratory tract diseases and provide common sense tips on how to win the war with microbes.

DELL MEDICAL SCHOOL

Accepted: Medical School Admissions 101
Program repeats at 3 p.m.
HLB - HEALTH LEARNING BUILDING, 1.111, 1ST FLOOR AUDITORIUM
Learn about the rigorous road to medical school and get tips for success from Joel Daboub, Director of Admissions at Dell Medical School. Students will have the opportunity to discuss future career options and ask questions about their aspirations.

DELL MEDICAL SCHOOL

Cancer Cell Cultures
Program repeats at 2 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
Join the LIVESTRONG Cancer Institutes lab team to see live, growing cell cultures using light microscopy. Learn about the differences between a breast cancer cell and a colorectal cancer cell and see a tumor sample grow in a lab.

DELL MEDICAL SCHOOL

Your Brain on Social Media
Program repeats at 1 and 3 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, EAST RESEARCH TABLES
DNA is the blueprint for life and every living thing living contains DNA. Join us for this experiment in which we’ll use fruit to learn the steps to extract DNA using common household items.

DELL MEDICAL SCHOOL

Exploring Earth’s Natural Energy Resources with 3-D Visualization
Program repeats at noon and 1 p.m.
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.216
Oil and gas are becoming more challenging to discover but 3-D technology and complex remote-sensing data sets are allowing geoscientists to harness new energy sources while gaining immense understand of this amazing planet. Space is limited to 50 people.
TEXAS ADVANCED COMPUTING CENTER
Technology Petting Zoo for All Ages
Program repeats at noon, 1, 2 and 3 p.m.
POB - PETER DONELLY JR. BUILDING, 2.404A
Interact with researchers from the Texas Advanced Computing Center to learn about supercomputers, experience mixed reality with the HoloLens, enter virtual reality with the Oculus Rift and explore simulations from natural disasters to outer space.

Noon to 12:40 p.m.

HARRY RANSOM HUMANITIES RESEARCH CENTER
Guided Exhibition Tours of "Vaudeville"
Program repeats at 2 and 4 p.m.
HRC - HARRY RANSOM CENTER, GALLERIES
The Harry Ransom Center's Spring exhibition draws from its extensive performing arts holdings. Learn how the vaudeville form came into existence, discover its structure and popular acts, and see its impact on contemporary film, television, and comedy.

MOODY COLLEGE OF COMMUNICATION
Mind as Muscle: How to Think about Thinking
Program repeats at noon
BMC - BELO CENTER FOR NEW MEDIA, 4.212
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
New Media, New Frontiers
Program repeats at 1 and 2 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 1.202
Join Professor Robert Quigley and Kelsey Whipple to learn what journalists do. They write stories, produce videos and tweet, but some also use Snapchat, create podcasts and dabble in virtual reality. Explore new ways to tell stories and learn what's next.

SCHOOL OF ARCHITECTURE
Architectural Origami
Program repeats at noon, 1 and 2 p.m.
GOL - GOLDSMITH HALL, 2.206
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE
Spaghetti Structures
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, SW PATIO
(See description under 11-11:40 a.m.)

COLLEGE OF EDUCATION
Hoof It for Your Health
Program repeats at 1 p.m.
SBZ - GEORGE I. SÁNCHEZ BUILDING, 2ND FLOOR LOBBY
Explore UT with a moderately paced one or two-mile walk led by the experts from the Fitness Institute of Texas. You’ll see highlights of the campus while you exercise your heart and learn about the many benefits of physical activity.

COLLEGE OF LIBERAL ARTS
Connecting Music with Psychology
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS
Discover the most important things you need to know to write and speak Spanish. Proud traditions of Spanish-speaking people. Discover the most important things you need to know to write and speak Spanish.

COLLEGE OF LIBERAL ARTS
Español, Mi Lengua y Mi Cultura
Program repeats at 1 p.m.
BEN - BENEDICT HALL, 1.126
Join professor Silvia Ramirez to learn about Spanish language and culture including the diverse origins of Spanish words and the proud traditions of Spanish-speaking people. Discover the most important things you need to know to write and speak Spanish.

COLLEGE OF LIBERAL ARTS
Evolution of the Superhero
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS
Join professor Michael Harney to explore the evolution of the superhero. Learn what makes a superhero, how they are different from other heroes, who was the first superhero and how superheroes have been saving the world for more than five centuries.

COLLEGE OF LIBERAL ARTS
Global Voices: Songs and Tales from Around the World
Program repeats at noon and 1 p.m.
PAR - PARLIN HALL, 103
Listen as faculty and students from several language programs at UT present authentic songs, folktales and poems from around the world with texts in their native language. An English translation of the texts will be provided.

COLORADO STREET THEATRE
Teaching From the Stands
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS
Develop your observational skills and learn how to implement them in writing when you join the Daily Texan, Cactus Yearbook and Texas Travesty editing staff for an inside look at the newsroom and find out what goes into making a newspaper.

HARRY RANSOM HUMANITIES RESEARCH CENTER
Guided Exhibition Tours of "Global Voices: Songs and Tales from Around the World"
Program repeats at noon, 1, 2 and 3 p.m.
HRC - HARRY RANSOM CENTER, GALLERIES
A guided tour of the exhibition will provide an overview of the Global Voices: Songs and Tales from Around the World exhibit.

THE UNIVERSITY OF TEXAS AT AUSTIN
LONGHORN LIFE | PUBLIC SERVICE | SCIENCE
THE UNIVERSITY OF TEXAS AT AUSTIN
9
(continued)
Noon to 12:40 p.m.

CHILDREN’S INTERNATIONAL FESTIVAL

CHILDREN’S INTERNATIONAL FESTIVAL
COLLEGE OF LIBERAL ARTS
EAST MALL

Come visit the Children’s International Festival where visitors will have the opportunity to experience the cultures of Ecuador, Russia, Tibet, France, Italy, other European nations and the Middle East.

Go back in time and craft a medieval shield or crown. Decorate your clothes with pre-Columbian art. Make your own matryoshka doll, beautiful luminary or European nations’ flags to take home. Learn how to make friends from around the world in their native language. These fun activities and a world of other experiences awaits explorers at the Children’s International Festival.

COLLEGE OF LIBERAL ARTS
Know Your Latin and Greek: An Inspirational Reflection Before Starting College
BEN - BENEDICT HALL, 1.124
Join professor Pablo Postigo Olsson for a dynamic presentation designed to inspire students before they get to college. He’ll share eight school and life skills to help prepare you to immerse yourself in the most exciting learning experience of your life.

COLLEGE OF LIBERAL ARTS
Learn German in 40 Minutes
Program repeats at noon, 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS
BUILDING, 0.128
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Learn Some Yiddish History and Classic Yiddish Phrases
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS
BUILDING, 0.126
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Playing Shakespeare
Program repeats at noon
PAR - PARLIN HALL, COURTYARD
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Printing on a 19th-Century Iron Hand Press
Program repeats at noon
CAL - CALHOUN HALL, 13
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Ransack, Die, Eggs: The Vikings’ Impact on the English Language
CLA - COLLEGE OF LIBERAL ARTS
BUILDING, 1.106
Argh. The Vikings stole treasures from the British Isles, but left something of value behind: their language. Join Dr. Todd Krause to explore the Vikings’ linguistic heritage in English and the mix of language and culture they transported across Europe.

COLLEGE OF LIBERAL ARTS
The Traditions and Practice of Making Paper Flowers
Program repeats at noon
GWB - GORDON-WHITE BUILDING, 2.206
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Ukrainian Pop Music: A Performance Featuring SpivOberta
Program repeats at 2 and 4 p.m.
WAG - WAGGENER HALL, 101
The young Ukrainian band, SpivOberta, has been performing together since early childhood in Eastern Ukraine, creating original music and interpreting Ukrainian folk songs. Join us for a performance to share in their music, stories and creative energy.

COLLEGE OF LIBERAL ARTS
Yookoso Japan
Program repeats at 1 p.m.
GAR - GARRISON HALL, 2.128
Join us to discover more about Japanese culture through hands-on activities such as origami, ayatori and kendama. You can also learn how to write your name using Japanese scripts.
as Longhorn Engineers. Explore what engineering is all about and discover the opportunities available to all engineers in our world.

Cockrell School of Engineering
Prospective Engineering Student Information Session for 11th Graders
EER - Engineering Education and Research Center, 0.904, Mulva Auditorium
Prospective engineering students in 11th grade and their parents are invited to learn about opportunities within the Cockrell School. This introductory session will introduce 11th graders to the school and its various departments, offices and programs.

Cockrell School of Engineering
Balloon Space Racers
Program repeats at noon, 1, 2, and 3 p.m.
WRW - W.R. Woolrich Laboratories, 3rd Floor Hallway

Cockrell School of Engineering
Building a Longhorn Rocket
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W.R. Woolrich Laboratories, 113

Cockrell School of Engineering
Cognitive Interaction with Humanoid Robots: Human Centered Robotics Lab Tour
Program repeats at noon
WRW - W.R. Woolrich Laboratories, 208

Cockrell School of Engineering
Designing and Testing Super Airplanes
Program repeats at noon, 1 and 2 p.m.
WRW - W.R. Woolrich Laboratories, 4th Floor Hallway

Cockrell School of Engineering
Engineering Devices for the Future of Health Care: The Bio-Integrated Electronics Lab
Program repeats at noon
EER - Engineering Education and Research Center, 7632 and 7634

Cockrell School of Engineering
Satellites and Space Garbage: Managing Traffic Orbiting Earth
Program repeats at 1 p.m.
WRW - W.R. Woolrich Laboratories, 102
Join Dr. Moriba Jah and graduate students from the Advanced Sciences & Technology Research in Astronautics (ASTRIA) program to learn about the challenges of managing the increasing number of satellites and space "garbage" orbiting Earth.
Noon to 12:40 p.m.

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Clean Energy for a Cleaner Tomorrow
Program repeats at noon
ETC - ENGINEERING TEACHING CENTER II, 9.130
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Fun with Nuclear Fission: Chain Reaction Mouse Trap Mania and a LEGO Nuclear Reactor
Program repeats at noon, 1, 2, 3 and 4 p.m.
ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Jello-Fracking and Twinkie Drilling
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.220
(See description under 11-11:40 a.m.)

VISITOR CENTER
Admissions Session: Admitted Students
BUR - BURDINE HALL, 106
If you are a high school senior and have already been admitted to UT Austin, this is a session just for you. Learn more about UT and the next steps in the admission process. Registration in advance is encouraged: admissions.utexas.edu/visit

LBJ SCHOOL OF PUBLIC AFFAIRS
Kid Candidate: Democracy for All Ages
Program repeats at noon and 1 p.m.
SRH - SID RICHARDSON HALL, 1ST FLOOR LOBBY
(See description under 11-11:40 a.m.)

SCHOOL OF LAW
So You Want to Go to Law School
TNH - TOWNES HALL, 2.137
Get an overview of the application process and requirements for Law School admission. Learn about steps to take early in an academic career to better prepare for law school consideration.

STEVE HICKS SCHOOL OF SOCIAL WORK
Social Work Research: Exploration That Changes Lives
Program repeats at noon, 1 and 2 p.m.
LBJ - LYNDON B. JOHNSON LIBRARY, FOUNTAIN COURT YARD
(SSW - School of Social Work Building, Lobby
(See description under 11-11:40 a.m.)

COLLEGE OF NATURAL SCIENCES
The Science Behind Personalized Cancer Therapies
WEL - ROBERT A. WELCH HALL, 2.122
UT Austin alumna, Dr. Gail Lewis Phillips, has made life-saving discoveries during her career as a Senior Research Scientist at Genentech. Come learn about advances in cancer research, including the beneficial move toward personalized medicine.

COLLEGE OF NATURAL SCIENCES: COMPUTER SCIENCE
The Computer Science Roadshow: Computer Science Experience for 7-12th Graders
GDC - BILL AND MELINDA GATES COMPUTER SCIENCE COMPLEX AND DELL COMPUTER SCIENCE HALL, 2.216
Join us to explore and learn about the world of computer science with the Computer Science Roadshow. You’ll discover how computer science can provide tools to help you explore new ideas and possibly create and build the next big thing.

COLLEGE OF PHARMACY
Hogwarts Jungle Potions Class
Program repeats at noon, 1, 2 and 3 p.m.
PHR - PHARMACY BUILDING, 3.110
(See description under 11-11:40 a.m.)
 Noon to 1:40 p.m.

COLLEGE OF PHARMACY
Interactive Opioid Overdose Rescue Training
Program repeats at 2 p.m.
PHR - PHARMACY BUILDING, 3.106
You walk into your best friends room to find them passed out on the couch. Are they napping? Did they drink too much? Did they overdose on painkillers? Learn how to respond in a situation like this through our interactive opioid overdose rescue training.

1–1:40 p.m.

COLLEGE OF FINE ARTS
UT Middle Eastern Music Ensemble “Bereket”: An Interactive Song and Dance Experience
PAC - PERFORMING ARTS CENTER, BASS CONCERT HALL LOBBY
Join Dr. Sonia Seeman to experience Middle Eastern and Muslim music and dance through interaction with live music. Participants will sing, clap and dance on a cultural journey through Southeastern Europe, the Middle East and Southeast Asia.

MOODY COLLEGE OF COMMUNICATION
Comm for a Chat: A Panel Discussion with Moody Communication Students
Program repeats at noon, 1 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.206
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
Comm Get Informed: Learn about Majors in the Moody College of Communication
Program repeats at noon, 1 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.204
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
New Media, New Frontiers
Program repeats at 1 and 2 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 1.202
(See description under noon to 12:40 p.m.)

SCHOOL OF ARCHITECTURE
Architectural Origami
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, 4.120
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE
Spaghetti Structures
Program repeats at noon, 1, 2, 3 and 4 p.m.
GOL - GOLDSMITH HALL, SW PATIO
(See description under 11-11:40 a.m.)

UNIVERSITY OF TEXAS LIBRARIES
Virtual Reality Painting
Program repeats at 2, 3 and 4 p.m.
DFA - E. WILLIAM DOTY FINE ARTS BUILDING, 3.200, THE FOUNDRY
Experience the world of 3-dimensional painting using the HTC Vive virtual reality system. You’ll be able to discover the unique perspective and options this technology provides for unlocking artistic and creative potential.

COLLEGE OF EDUCATION
Hoof It for Your Health
Program repeats at 1 p.m.
SZB - GEORGE I. SÁNCHEZ BUILDING, 2ND FLOOR LOBBY
(See description under noon to 12:40 p.m.)
COLLEGE OF EDUCATION
Interactive Games: Learning Through Play
SZB - GEORGE I. SÁNCHEZ BUILDING, 296
Join us for experiential activities centered around child development. Dr. Sarah Kate Bearman will demonstrate how toys, games, and play are essential elements of child development.

COLLEGE OF EDUCATION
Unlock Your Spine and Roll Out a New You
Program repeats at 1 p.m.
SZB - GEORGE I. SÁNCHEZ BUILDING, 2ND FLOOR, MASSEY HONOR HALL
(See description under 11-11:40 a.m.).

COLLEGE OF LIBERAL ARTS
40-Minute Immersion in Scandinavian Languages and Culture
Program repeats at 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.302E
(See description under noon to 12:40 p.m.)

COLLEGE OF LIBERAL ARTS
Ancient Medicine in the Roman Empire
Program repeats at noon, 1 and 2 p.m.
WAG - WAGGENER HALL, 116
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Connecting Music with Psychology
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.104
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Cultural Cures: Latinx Folk Medicine and Healing Traditions
Program repeats at 2 p.m.
GWB - GORDON-WHITE BUILDING, 2.206
Home remedies, use of herbs and healing rituals are Latinx heritage health practices that have been passed down for generations. Dr. Rachel González-Martin will share how a mix of spiritual belief and practical knowledge can fuel Latinx community health.

COLLEGE OF LIBERAL ARTS
Español, Mi Lengua y Mi Cultura
Program repeats at 1 p.m.
BEN - BENEDICT HALL, 1.126
(See description under noon to 12:40 p.m.)

COLLEGE OF LIBERAL ARTS
Introducing the Texas German Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.108
(See description under noon to 11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Learn German in 40 Minutes
Program repeats at noon, 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.128
(See description under noon to 11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Learn Some Yiddish History and Classic Yiddish Phrases
Program repeats at noon and 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.126
(See description under noon to 11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Poetry Becomes Music: Mugham from Azerbaijan by Aqil Suleymanov
Program repeats at 1 and 3 p.m.
WAG - WAGGENER HALL, 101
(See description under noon to 11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Shakespeare at Winedale Performance
PAR - PARLIN HALL, COURTYARD
Students from the renowned Shakespeare at Winedale program will perform scenes from Shakespeare’s plays. This innovative program allows non-actors to explore Shakespeare’s complex texts through the experience of rehearsing and performing the plays.

MCCOMBS SCHOOL OF BUSINESS
Brand Yourself
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under noon to 11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Finance 101: Managing Your Money
Program repeats at 2 p.m.
GSB - GRADUATE SCHOOL OF BUSINESS BUILDING, 3.120
The best time to start saving money is now. Join student employees from the Financial Education and Research Center for a fun, interactive presentation to learn how to create wealth and manage money by saving and investing your resources starting today.

MCCOMBS SCHOOL OF BUSINESS
Fit to Be Tied
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under noon to 11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Teamwork: It’s All Fun and Games
Program repeats at 2 p.m.
GSB - GRADUATE SCHOOL OF BUSINESS BUILDING, 3.138
Being a great leader means being a great teammate. Join members of the McCombs Leadership Program to learn how to
maximize your own strengths as well as make your whole group stronger while having fun playing games and making new friends.

MCCOMBS SCHOOL OF BUSINESS
The Price is Right
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
The Problem with Combining People and Money
Program repeats at noon and 1 p.m.
GSB - GRADUATE SCHOOL OF BUSINESS
BUILDING, 2.124
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Thinking Globally: Leadership
from Austin to Athens
Program repeats at 2 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, 3.304, EVENTS ROOM
Whether you’re traveling halfway around the world or simply meeting someone from a different part of the country, it’s important to think globally. Join members of the McCombs Leadership Program for tools to act as a global leader no matter where you are.

MCCOMBS SCHOOL OF BUSINESS
Where in the World Will You Land?
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Cockrell School Technology and Traditions Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 2ND FLOOR LOBBY
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Executive Education: Lifelong Learning Opportunities for Working Engineers
ETC - ENGINEERING TEACHING CENTER II, 2.108
Texas Engineering Executive Education provides busy engineers with education and real-world training that drives career growth and accelerates innovation. Learn about online and on-campus executive master’s degrees, professional development and more.

COCKRELL SCHOOL OF ENGINEERING
Internationalizing Your Degree
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.904, MULVA AUDITORIUM
Discover skills a global engineer needs – creativity, adaptability, a world view, cultural awareness – and how these skills can be developed. Explore study abroad opportunities and how global engineering education can create an international connection.

COCKRELL SCHOOL OF ENGINEERING
Print-A-Cookie: Exploring 3-D Printing Technology
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 3RD FLOOR HALLWAY
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Building a Longhorn Rocket
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 113
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Satellites and Space Garbage: Managing Traffic Orbiting Earth
Program repeats at 1 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 102
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
UTonomy: Drones That Fly Themselves
Program repeats at 1, 2 and 3 p.m.
WRW - W. R. WOOLRICH LABORATORIES, ROOF
(ACCESS THROUGH EAST STAIRWELL)
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Fun with Optics
Program repeats at noon and 1 p.m.
BME - BIOMEDICAL ENGINEERING BUILDING, 3.204, SEMINAR ROOM
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Heart Valve Modeling and Cardiovascular Engineering
Program repeats at 3 p.m.
ECJ - ERNEST COCKRELL JR. HALL, 1.204
Join Dr. Michael Sacks and his research team to learn how heart valves work and how they are studied to design improved repair methods and replacements. They’ll also share novel treatment and prevention strategies for cardiovascular disease.

COCKRELL SCHOOL OF ENGINEERING
Chemical Engineers and Science Demonstrations: Liquid Nitrogen Marshmallows and More
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Chemical Engineers and Science Tricks: Elephant Toothpaste and Frozen Flowers
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, PLAZA
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Polymer Secrets: Playing with Plastic
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.218
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
LED Butterflies
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.824 AND 0.825
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Flame On: Ignition Happens
Program repeats at 1 and 3 p.m.
ETC - ENGINEERING TEACHING CENTER II, PLAZA
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Fun with Nuclear Fission: Chain Reaction Mouse Trap Mania and a LEGO Nuclear Reactor
Program repeats at noon, 1, 2, 3 and 4 p.m.
ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
(See description under 11-11:40 a.m.)
TIMED EVENTS

1 p.m.

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Cupcake Coring Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7116
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Insights into Hydraulic Fracturing
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.208
Dr. Jon Olson, chair of the Petroleum Engineering Department will share insight on how hydraulic fracturing has revolutionized the U.S. oil and gas business. He’ll separate fact from fiction with regard to fracturing's environmental impact.

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Jello-Fracking and Twinkie Drilling
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.220
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

The Magic of Producing Petroleum
Program repeats at 1 and 2 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.210
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

UT Austin's Pumping Oil Well
Program repeats at 1 and 3 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.502
(See description under 11-11:40 a.m.)

DIVISION OF DIVERSITY AND COMMUNITY ENGAGEMENT

Life as a College Student
Program repeats at 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.102
(See description under 11-11:40 a.m.)

DIVISION OF DIVERSITY AND COMMUNITY ENGAGEMENT

Pay for College: Scholarships, Loans, Grants and Work
Program repeats at 1 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.112
(See description under 11-11:40 a.m.)

1–1:40 p.m.

FIRE PREVENTION SERVICES

Gone in a Flash: Matt's House Bedfire Fire Simulator
SPEEDWAY MALL
Join Austin Fire Department representatives to discover how quickly fire can spread in a home. Using a safe and simulated "bedroom in Matt's house," officers will demonstrate the speed and dangers of fire by lighting the room on fire.

INTERCOLLEGIATE ATHLETICS

Run the Texas Flag with Alpha Phi Omega
MAI - MAIN BUILDING, EAST FLAG COURTYARD
Alpha Phi Omega (APO) is known for their impressive running of the world's largest Texas flag at UT's football games. Join APO members to learn more about their organization and services to UT. You can test your skills at running a smaller Texas flag.

SCHOOL OF UNDERGRADUATE STUDIES

Undergraduate Research: Start Here, Change the World
Program repeats at 2 p.m.
MEZ - MEZES HALL, 2.118
At UT, every undergraduate student has the opportunity to engage in research. Find out what it's like to contribute to the world-changing work of a top-tier research university.

VISITOR CENTER

Admissions Session: Prospective Freshmen
BUR - BURDINE HALL, 106
This session is for 9th-11th grade students who want to learn about UT Austin and the admissions application process. Registration in advance is encouraged for individuals and required for groups: admissions.utexas.edu/visit

VISITOR CENTER

Campus Walking Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
BARBARA JORDAN STATURE, CORNER OF 24TH STREET AND WHITIS AVENUE
(See description under 11-11:40 a.m.)

LBJ SCHOOL OF PUBLIC AFFAIRS

Kid Candidate: Democracy for All Ages
Program repeats at noon and 1 p.m.
SRH - SID RICHARDSON HALL, 1ST FLOOR LOBBY
(See description under 11-11:40 a.m.)

SCHOOL OF LAW

Gold E. Locks Mock Trial
Program repeats at 3 p.m.
CCJ - JOHN B. CONNALLY CENTER FOR JUSTICE, EIDMAN COURTHOUSE
Law students perform in a mock trial with Gold E. Locks, a well-known storybook figure, as the defendant. The Honorable Edward C. Prado, Fifth Circuit Court of Appeals, presides. Children in the courtroom will be selected to serve as the jurors.

STEVE HICKS SCHOOL OF SOCIAL WORK

Social Work Research: Exploration That Changes Lives
Program repeats at noon and 1 p.m.
LBJ - LYNDON B. JOHNSON LIBRARY, FOUNTAIN COURTYARD
SSW - School of Social Work Building, Lobby
(See description under 11-11:40 a.m.)

COLLEGE OF NATURAL SCIENCES

All Things Human Ecology: A Discussion with Current Students
GEA - MARY E. GEARING HALL, 105
Join current School of Human Ecology students for an interactive discussion at which prospective students and parents can ask questions about specific majors, honors programs, research opportunities, study abroad programs and student life.

COLLEGE OF NATURAL SCIENCES

Bully-Proofing the Teen Years
SAC - STUDENT ACTIVITY CENTER, 2.302
The majority of bullying cases are bias-based. Join Dr. Fatima Varner and Dr. Stephen Russell to learn what schools and families can do to build a more supportive climate for all youth and to prevent students from being targeted for who they are.

COLLEGE OF NATURAL SCIENCES

Fun with Chemistry
Program repeats at 1 p.m.
SAC - STUDENT ACTIVITY CENTER, 1.402
(See description under noon to 12:40 p.m.)

COLLEGE OF NATURAL SCIENCES

The Challenges and Future of Computer Science: Understanding and Shaping the 3-D World
POB - PETER O’DONNELL JR. BUILDING, 2.302
The third dimension (3-D) is increasingly integrated with the technology that we use, from depth sensors to 3-D printers and virtual reality goggles. Join Dr. Etienne Vouga to discuss the current state of emerging technologies and challenges for the future.

COLLEGE OF NATURAL SCIENCES

How To Create Mobile Apps
GDC - BILL AND MELINDA GATES COMPUTER SCIENCE COMPLEX AND DELL COMPUTER SCIENCE HALL, 2.216
Mobile apps are amazing tools that help us interact with technology and other people. Join students members of the Computer Science Roadshow for a fun demonstration to learn the basics of how to create your own mobile app.
Health District Campus Activities

DELL MEDICAL SCHOOL, SCHOOL OF NURSING
HDB - HEALTH DEVELOPMENT BUILDING
HLB - HEALTH LEARNING BUILDING
HTB - HEALTH TRANSFORMATION BUILDING
NUR - SCHOOL OF NURSING

Visit the newly developed health district campus to join students and representatives from the Dell Medical School and School of Nursing for fun and educational programs related to medicine, nursing, transformative health care, and improving people’s lives. You’ll also be able to view “Spiral of Galaxy,” a work by Marc Quinn that is located on the Health Learning Building plaza and a part of the College of Fine Arts’ Landmarks public arts program.

The Explore UT shuttle is available to transport visitors from the Main Campus to the district, located near the Frank Erwin Center (ERC) and south of Martin Luther King, Jr. Blvd. Parking will also be available in the nearby Heath Center Garage (HCG) located at 1601 Trinity Street.

COLEGE OF PHARMACY
Drugs in the Pop Culture
PHR - PHARMACY BUILDING, 3.106
Join current students in the Pharm. D. program to learn how different types of drugs are used or abused in pop culture. You’ll discover how pharmacists can help individuals assess the appropriate use and help address the potential misuse of drugs.

COLEGE OF PHARMACY
Hogwarts Jungle Potions Class
Program repeats at noon, 1, 2 and 3 p.m.
PHR - PHARMACY BUILDING, 3.110
(See description under 11-11:40 a.m.)

COLEGE OF PHARMACY
On the Trail of the Pharm.D.: A Trek Towards Excellence
Program repeats at 1 p.m.
PHR - PHARMACY BUILDING, 2.110
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL
Brains, Bumps and Bruises: Why a Helmet is Your Best Friend
HDB - HEALTH DISCOVERY BUILDING, 1.204
Learn how your brain works as you take an imaginary trip on your bicycle or skate board, hold a jiggly brain in your hands, feel the bone that is there to protect it, and take a close look at a helmet to see why it is your best friend.

DELL MEDICAL SCHOOL
Don’t Skip a Beat
Program repeats at 4 p.m.
HLB - HEALTH LEARNING BUILDING, 1.111, 1ST FLOOR AUDITORIUM
Dr. Reginald Baptiste, a cardiothoracic surgeon, will explain the anatomy and physiology of the heart through a hands-on lecture. Participants will observe an oversized model of the heart that allows for intense observation and interaction.

DELL MEDICAL SCHOOL
Extract DNA from Fruit
Program repeats at 1 and 3 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, EAST RESEARCH TABLES
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL
Learn about Cancer Cells Through Histology
Program repeats at 4 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
Learn about histology, the study of structural form under the microscope, and how it is a helpful method in cancer research. You’ll be able to take a look at stained cells and tissues to see the differences between healthy and cancerous cells.

DELL MEDICAL SCHOOL
You Are What You Eat: Rethinking "Fast Food"
HDB - HEALTH DISCOVERY BUILDING, 1.208, 1ST FLOOR AUDITORIUM
Learn about healthy food choices and ways to maintain overall health through your diet with a cooking demonstration of fast, healthy recipes from Nourish Café, the kitchen that serves meals to Dell Med’s students, faculty, staff and visitors.

JACKSON SCHOOL OF GEOSCIENCES
Exploring Earth’s Natural Energy Resources with 3-D Visualization
Program repeats at noon and 1 p.m.
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.216
(See description under 11-11:40 a.m.)

JACKSON SCHOOL OF GEOSCIENCES
TexNet: Monitoring Earthquakes in Texas with the Texas Seismological Network
Program repeats at 1 p.m.
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.218
(See description under noon to 12:40 p.m.)

SCHOOL OF NURSING
Mapping Your Way to a Nursing Education and Career
Program repeats at 2 p.m.
NUR - NURSING SCHOOL, 1.118
Nursing is one of the most diverse, satisfying, and fastest growing occupations in the country and it may be the right career choice for you. Meet with nursing advisers to discuss the many choices for academic studies and career opportunities in nursing.

SCHOOL OF NURSING
Welcoming Baby: Helping Siblings Prepare for a New Family Member
Program repeats at 3 p.m.
NUR - NURSING SCHOOL, 1.106
Introducing younger children to the idea of being a big sister or brother can help them learn how to welcome the new baby to the family. We’ll provide a baby mannequin to help them learn to hold a baby, change a diaper and basic skills for feeding a baby.

SCHOOL OF NURSING
You Be the Evaluator: Grading a Nursing Student’s Performance
Program repeats at 1 p.m.
NUR - NURSING SCHOOL, 4.102
(See description under noon to 12:40 p.m.)

TEXAS ADVANCED COMPUTING CENTER
Social Media Mining for Hot Topics
POB - PETER O’DONNELL JR. BUILDING, 2.404C
Learn how companies use social media to determine which stories are news-worthy based on the information users input via outlets such as Facebook, Twitter and more. The discussion will be presented by UT undergraduate student Latrell Gaither.
TEXAS ADVANCED COMPUTING CENTER
Technology Petting Zoo for All Ages
Program repeats at noon, 1, 2 and 3 p.m.
POB - PETER O'DONNELL JR. BUILDING, 2.404A
(See description under noon to 12:40 p.m.)

2–2:40 p.m.

HARRY RANSOM HUMANITIES RESEARCH CENTER
Guided Exhibition Tours of "Vaudeville"
Program repeats at 2 and 4 p.m.
HRC - HARRY RANSOM CENTER, GALLERIES
(See description under noon to 12:40 p.m.)

MOODY COLLEGE OF COMMUNICATION
Comm for a Chat: A Panel Discussion with Moody Communication Students
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.206
(See description under noon to 11:11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
Comm Get Informed: Learn about Majors in the Moody College of Communication
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.204
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
Creating Virtual Worlds
Program repeats at noon, 2 and 3 p.m.
CMB - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.114
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
New Media, New Frontiers
Program repeats at 1 and 2 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 1.202
(See description under noon to 12:40 p.m.)

MOODY COLLEGE OF COMMUNICATION
Texas Student Media Tour: The Daily Texan, Cactus Yearbook and Texas Travesty
Program repeats at noon, 1, 2, 3 and 4 p.m.

HSM - HEARST STUDENT MEDIA BUILDING, 2.122
(See description under noon to 11:11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION
The Power of Film Editing in Crafting Comedy
Program repeats at 2 and 3 p.m.
CMB - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.118, 4B
(See description under 1:1-1:40 p.m.)

SCHOOL OF ARCHITECTURE
Architectural Origami
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, 4.120
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE
Spaghetti Structures
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, SW PATIO
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE
Majoring in Architecture and Interior Design
GOL - GOLDSMITH HALL, 3.120
Join advising coordinator Katrina Kosted and academic adviser Tomi Yamamoto for information about majoring in architecture and interior design at UT. A question-and-answer opportunity will be provided.

UNIVERSITY OF TEXAS LIBRARIES
Virtual Reality Painting
Program repeats at 2, 3 and 4 p.m.
DFA - E. WILLIAM DOTY FINE ARTS BUILDING, 3.200, THE FOUNDRY
(See description under 1-1:40 p.m.)

COLLEGE OF EDUCATION
The Sibling Summit: Sharing the Sibling Experience Across the Lifespan
SZB - GEORGE I. SÁNCHEZ BUILDING, 330
Join Dr. Toni Falbo for a summit to share information about what is known about siblings, both as children, and later in life, as adults. Audience participation and questions will be welcomed.

COLLEGE OF LIBERAL ARTS
40-Minute Immersion in Scandinavian Languages and Culture
Program repeats at 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.302E
(See description under noon to 12:40 p.m.)

COLLEGE OF LIBERAL ARTS
Ancient Medicine in the Roman Empire
Program repeats at noon, 1 and 2 p.m.
WAG - WAGGENER HALL, 116
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Cultural Cures: Latinx Folk Medicine and Healing Traditions
Program repeats at 2 p.m.
GWB - GORDON-WHITE BUILDING, 2.206
(See description under 1-1:40 p.m.)

COLLEGE OF LIBERAL ARTS
Experience Brazil
BEN - BENEDICT HALL, 1.126
Join professor Vivian Flanzer and other instructors for fun, hands-on activities and
to learn basic Portuguese language skills within the context of experiencing the varied and wonderfully diverse culture of Brazil.

MCCOMBS SCHOOL OF BUSINESS
Finance 101: Managing Your Money
Program repeats at 2 p.m.
GSB - GRADUATE SCHOOL OF BUSINESS BUILDING, 3.120
(See description under 1:14 p.m.)

COLLEGE OF LIBERAL ARTS
Learn German in 40 Minutes
Program repeats at noon, 1 and 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.128
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Literary Marriages from Hell
PAR - PARLIN HALL, 101
The marriage of Sylvia Plath and Ted Hughes brought together two very talented poets and two very combustible personalities. As exemplified in their poems, great art and great tragedy would be the outcome in their highly creative and destructive marriage. | Adults

COLLEGE OF LIBERAL ARTS
Relativity Schmelativity
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.106
Join Dr. Todd Krause to learn about space-time and Einstein's Special Theory of Relativity. Not only is it one of the greatest leaps of human insight into nature, but it's pretty easy to understand: two simple ideas and three mind-boggling consequences.

COLLEGE OF LIBERAL ARTS
Scenes from Shakespeare's "Hamlet"
CAL - CALHOUN HALL, 100
Join student members of the Spirit of Shakespeare players, for a presentation of scenes from Shakespeare's most famous tragedy, "Hamlet, Prince of Denmark." Come for ghosts, treachery and, of course, "To be or not to be..."

COLLEGE OF LIBERAL ARTS
Scenes from the Movie "Giant"
PAR - PARLIN HALL, 103
"Giant" was an epic American film starring Elizabeth Taylor, Rock Hudson and James Dean. Watch key scenes to see how the movie explored feminism and racism over 25 years of Texas history, as well as other issues from ranching culture to the impact of oil.

COLLEGE OF LIBERAL ARTS
The Long March of Fidel Castro
Program repeats at 2 p.m.
GAR - GARRISON HALL, 1.126
(See description under 11-11:40 a.m.)

COLLEGE OF LIBERAL ARTS
Ukrainian Pop Music: A Performance Featuring SpivOberta
Program repeats at 2 and 4 p.m.
WAG - WAGGENER HALL, 101
(See description under noon to 12:40 p.m.)

MCCOMBS SCHOOL OF BUSINESS
Brand Yourself
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Fit to Be Tied
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Interview Like A Pro
Program repeats at 2 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, ATRIUM
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Teamwork: It's All Fun and Games
Program repeats at 2 p.m.
GSB - GRADUATE SCHOOL OF BUSINESS BUILDING, 3.138
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
The Price is Right
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Thinking Globally: Leadership from Austin to Athens
Program repeats at 2 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, 3.304, EVENTS ROOM
(See description under 11-11:40 a.m.)

MCCOMBS SCHOOL OF BUSINESS
Where in the World Will You Land?
Program repeats at noon, 1, 2 and 3 p.m.
CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Cockrell School Technology and Traditions Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 2ND FLOOR LOBBY
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING
Print-A-Cookie: Exploring 3-D Printing Technology
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7.114
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
Balloon Space Racers
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 3RD FLOOR HALLWAY
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
Unmanned Aerial Vehicle Showcase
Program repeats at noon, 2 and 3 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 202
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: BIOMEDICAL
3-D Printing the Human Body
Program repeats at 2 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 7.646
(See description under noon to 12:40 p.m.)
(continued)

2–2:40 p.m.

COCKRELL SCHOOL OF ENGINEERING: BIOMEDICAL
Biomedical Engineering
Prospective Student Session for 9th, 10th and 11th Graders
Program repeats at 3 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.904, MULVA AUDITORIUM
Learn all about the Biomedical Engineering (BME) program – its curriculum, career, research and student organization opportunities, as well as the study abroad options available to BME students.

COCKRELL SCHOOL OF ENGINEERING: BIOMEDICAL
Exploring Nanomedicine and Light
Program repeats at 3 p.m.
BME - BIOMEDICAL ENGINEERING BUILDING, 3.204, SEMINAR ROOM
Visit this display by Dr. Tim Yeh and his students to learn about nanomaterials. Microscopes will allow you to view the nanomaterials and learn how these microscopic techniques can assist with solving healthcare issues in disease diagnosis and treatment.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Chemical Engineers and Science Demonstrations: Liquid Nitrogen Marshmallows and More
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.218
RLM - Robert Lee Moore Hall, 2.116
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Chemical Engineers and Science Tricks: Elephant Toothpaste and Frozen Flowers
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, PLAZA
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER
A Day in the Life of an Electrical Engineering Student
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 1.516
Discover what it’s like to major in Electrical and Computer Engineering. Professor Jon Valvano and undergraduate students will host an engaging discussion to showcase student projects and talk about the rewards of pursuing this academic discipline.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER
LED Butterflies
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.824 AND 0.825
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Fun with Nuclear Fission: Chain Reaction Mouse Trap Mania and a LEGO Nuclear Reactor
Program repeats at noon, 1, 2, 3 and 4 p.m.
ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS
Cupcake Coring
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7.116
(See description under 11-11:40 a.m.)

DIVISION OF DIVERSITY AND COMMUNITY ENGAGEMENT
College Admissions for First Generation Families
Program repeats at 2 p.m.
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 0.130
(See description under noon to 12:40 p.m.)

FIRE PREVENTION SERVICES
Learn How to PASS Fire Extinguisher Training
Program repeats at 2 p.m.
SPEEDWAY MALL
(See description under noon to 12:40 p.m.)

SCHOOL OF UNDERGRADUATE STUDIES
Undergraduate Research: Start Here, Change the World
Program repeats at 2 p.m.
MEZ - MEZES HALL, 2.118
(See description under 1-1:40 p.m.)

UNIVERSITY HOUSING AND DINING
Living Learning Communities
Program repeats at 2 p.m.
ADH - ALMETRIS DUREN RESIDENCE HALL, RIVERS ROOM
(See description under 11-11:40 a.m.)
The university will be a center of activity on Explore UT weekend, but there are many places to park free of charge in and around the campus. Most UT parking, as well as state lots and garages south of Martin Luther King Jr. Boulevard (MLK), are open on Saturday. Some areas may require a permit. Please observe posted signs.

Free Parking is available in the following UT parking garages:

- **27th Street Garage (TSG)**
  109 West 27th Street
- **Brazos Garage (BRG)**
  210 East MLK Boulevard
- **Manor Garage (MAG)**
  2017 Robert Redman Drive
- **San Jacinto Garage (SJG)**
  2401 San Jacinto Boulevard
- **Speedway Garage (SWG)**
  105 East 27th Street

Entering the campus from the north on Dean Keeton Street will provide the easiest access to free parking garages. See the Explore UT map for locations (page 22).

**Free Parking after 2 p.m.** is available in the following garage on the south side of campus:
- **Health Center Garage (HCG)**
  1601 Trinity Street

**Special Parking Needs**
For visitors with special parking needs, please see a guard at any UT guard station at the campus entrances indicated on the Explore UT map by the symbol.

**Campus Shuttle**
A free campus shuttle service will begin operation at 9:30 a.m. and continue throughout the day until 6 p.m. Hop on or off at any shuttle stop. Consult the Explore UT map for shuttle stops designated by the symbol.

**Information Centers**
Information centers are available at most shuttle stops and at other locations around campus. These centers are identified by the symbol on the Explore UT map. In addition to answering questions, volunteers at the information centers will be able to provide materials to assist you in your adventures on campus.

**Lost and Found**
To check on the status of a lost item, please go to the Lost and Found tent on the east mall of the UT Tower, marked by a symbol on the map.

**First Aid**
Two First Aid stations will be available at Explore UT. Locations are identified by the symbol on the Explore UT map in the North End Zone (NEZ), at the corner of 23rd Street and San Jacinto Boulevard, and on the east plaza of the UT Tower.

**Restrooms**
Restrooms are available in every campus building. Most buildings are open for Explore UT and restrooms are easily accessible.

**Food Service**
Visitors may purchase food and beverages at the following locations. These locations are designated by the symbol on the Explore UT map.

- **Art Building and Museum (ART)**
  San Jacinto at 23rd Street
  Texas Coffee Traders: 11 a.m. to 3 p.m.

- **AT&T Executive Education and Conference Center (ATT)**
  University Avenue and 20th Street
  Gabriel’s Café: 11 a.m. to midnight

- **Blanton Museum of Art, Edgar A. Smith Building (EAS)**
  Martin Luther King Jr. Boulevard and Congress Avenue
  The Blanton Café: 11 a.m. to 4 p.m.

- **Darrell K Royal–Texas Memorial Stadium North End Zone (NEZ)**
  **Food Court**
  23rd Street and San Jacinto Boulevard
  Starbucks: 9 a.m. to 5 p.m.
  Subway: 9 a.m. to 5 p.m.

- **Gates Dell Complex (GDC)**
  Speedway Avenue near the East Mall
  Texas Coffee Traders: 11 a.m. to 5 p.m.

- **Gregory Gymnasium (GRE)**
  21st Street and Speedway Avenue
  Shake Smart: 9 a.m. to 8 p.m.
  Stop by for a $5 meal deal special: buy a shake, get a peanut butter and banana sandwich free.

- **Health Learning Building (HLB)**
  Red River Street south of Martin Luther King Jr. Boulevard
  Nourish Café: 10 a.m. to 3 p.m. – full offerings; 3-5 p.m. – beverages and snacks only.
  Healthy choices; lunch or grab and go snacks.

- **Health Transformation Building (HTB)**
  Trinity Street north of 15th Street
  HTB Café: 10 a.m. to 3 p.m. – full offerings; 3-5 p.m. – beverages and snacks only.
  Healthy choices; lunch or grab and go snacks.

- **Jackson Geological Sciences Building (JGB)**
  Speedway Avenue
  Texas Coffee Traders: 11 a.m. to 3 p.m.

- **Jester Center Residence Hall (JES)**
  21st Street and Speedway Avenue
  Jester City Limits Food Court: 9 a.m. to 8 p.m.
  Jester Java: 8 a.m. to 8 p.m.
  Jester City Market: 8 a.m. to 8 p.m.
  Jester Second Floor Dining: 10:30 a.m. to 2:30 p.m. For groups who completed the online Dining Registration Form.

- **Kinsolving Residence Hall (KIN)**
  Dean Keeton Street and Whitis Avenue
  Kinsolving Dining: 10:30 a.m. to 2:30 p.m. and 4:30–7 p.m. For groups who completed the online Dining Registration Form.
  Kin’s Market: 10:30 a.m. to 7 p.m.
  Kin’s Coffee: 9 a.m. to 3 p.m.

- **Littlefield Residence Hall (LTD)**
  Dean Keeton Street and University Avenue
  Littlefield Patio Café: 11 a.m. to 3 p.m.
  $6 meal deals available from the deli, grill and pizza station.

- **Robert Lee Moore Hall (RLM)**
  Dean Keeton Street and Speedway Avenue
  Texas Coffee Traders, RLM Café: 11 a.m. to 3 p.m.

- **San Jacinto Residence Hall (SJH)**
  21st Street and San Jacinto Boulevard
  Cypress Bend Café: 11 a.m. to 7 p.m. Stop by for $6 Explore UT Specials.

- **Student Activity Center (SAC)**
  21st Street and Speedway Avenue
  Chick-fil-A: 10:30 a.m. to 2:30 p.m.
  Starbucks: 10 a.m. to 5 p.m.
  Taco Cabana: 10:30 a.m. to 2:30 p.m.
  Zen: 10 a.m. to 2 p.m.

- **Texas Union Building (UNB)**
  West Mall at Guadalupe Street
  Campus Store: 10 a.m. to 2 p.m.
  Chick-fil-A: 10 a.m. to 2 p.m.
  Panda Express: 11 a.m. to 8 p.m.
  Quizno’s: 11 a.m. to 5 p.m.
  Starbucks: 10 a.m. to 10 p.m.
  Wendy’s: 10 a.m. to 2 a.m.
March with the Longhorn Band

COLLEGE OF FINE ARTS AND TEXAS SPORTS
STD - DARRELL K ROYAL–TEXAS MEMORIAL STADIUM, NEZ GATE 16 ENTRANCE

Follow in the footsteps of a more than 100-year-old university tradition and experience the thrill of marching with the Longhorn Band (LHB). A rehearsal session will be held on the Joe Jamail Field in the Darrell K Royal–Texas Memorial Stadium (STD) followed by a march to the Tower for the Explore UT class photo at 5 p.m. This “feet on field” session will feature instruction in the “LHB” style of marching by Longhorn Band members. Rehearsal begins at 4 p.m. with the march to the Tower at 4:40 p.m.

Residence Hall Tours

Tour one of several on-campus residence halls that will be providing tours throughout the day to find out more about resident life on campus. Check program listings on pages-38-39 for times and locations to tour the following residence halls: Almetris Duren, Honors Quad, Jester West, Kinsolving or San Jacinto.

Campus Walking Tours

OFFICE OF ADMISSIONS
BARBARA JORDAN STATUE, CORNER OF 24TH STREET AND WHITIS AVENUE

Take a student-led tour of campus to learn about our unique history, culture and resources. Hear from a student about life as a Longhorn. Comfortable walking shoes suggested. Tours leave at the top of every hour from the Barbara Jordan Statue at the corner of 24th Street and Whitis Avenue.

Capture the Experience

Be sure to bring a camera to capture your adventures on campus. There will be multiple opportunities to get a photo with UT icons and mascots. Some of the opportunities are listed on page 38 including the “Longhorns Photo Center” in the North End Zone (NEZ) of the Darrell K Royal–Texas Memorial Stadium (STD).
(continued)

2–2:40 p.m.

VISITOR CENTER

Campus Walking Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
BARBARA JORDAN STATUE, CORNER OF 24TH STREET AND WHITIS AVENUE
(See description under 11-11:40 a.m.)

STEVE HICKS SCHOOL OF SOCIAL WORK

Social Work Research: Exploration That Changes Lives
Program repeats at noon, 1 and 2 p.m.
LBJ - LYNDON B. JOHNSON LIBRARY, FOUNTAIN COURTYARD
(SSW - School of Social Work Building, Lobby
(See description under 11-11:40 a.m.)

COLLEGE OF NATURAL SCIENCES

Brainstorms: A Conversation about Memory, Alzheimer’s, and Other Memory Disorders
Program repeats at 3 p.m.
POB - PETER O’DONNELL JR. BUILDING, 2.302
Join Dr. Michael Mauk for a discussion about memory disorders and to learn more about "UT Brainstorms: A Conversation on the Brain," the new public outreach and education program within the Department of Neuroscience. An open Q&A session will follow.

COLLEGE OF NATURAL SCIENCES

Editing DNA: The Amazing Technology of CRISPR
WEL - ROBERT A. WELCH HALL, 2.122
Join structural biologist and professor David Taylor to learn more about the incredible possibilities of an amazing device known as CRISPR, a genome editing tool that allows scientists to edit genetic information with unprecedented precision.

COLLEGE OF NATURAL SCIENCES

Racial Discrimination and Resilience in African-American Families
SAC - STUDENT ACTIVITY CENTER, 2.302
Join Professor Fatima Varner from the Department of Human Development and Family Sciences as she discusses the strengths of African American families, as well as parents’ responses to the challenges of racial discrimination experiences.

COLLEGE OF NATURAL SCIENCES

Smart Kids: A Panel Discussion of Career Paths and Personal Journeys in Science
SAC - STUDENT ACTIVITY CENTER, 1.402
Meredith Walker, co-founder of Amy Poehler’s "Smart Girls," will moderate a discussion by stellar scientists including Genentech researcher, Dr. Gail Lewis Phillips, Fun with Chemistry star, Dr. Kate Biberforf and Raquel Martinez, host of Astronomy on Tap.

COLLEGE OF PHARMACY

Hogwarts Jungle Potions Class
Program repeats at noon, 1, 2 and 3 p.m.
PHR - PHARMACY BUILDING, 3.110
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL

Cancer Cell Cultures
Program repeats at 2 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL

Careers In Medicine
HLB - HEALTH LEARNING BUILDING, 1.111, 1ST FLOOR AUDITORIUM
Get an insider’s look at a day in the life of doctors working in various medical professions. Learn about their career journeys and hear what they’ve learned during years of practice.

SCHOOL OF NURSING

A Lecture on Promoting Mental Health: Exercise, Sleep, Eat Well and Have Fun
Program repeats at 3 p.m.
NUR - NURSING SCHOOL, 1.108
Join Dr. Donna Rolin and Advanced Practice Nursing students to learn how to identify strategies for improving your mental health and practical ways to put those strategies into practice through exercise, sleep practices, healthy eating and having fun.

SCHOOL OF NURSING

Mapping Your Way to a Nursing Education and Career
Program repeats at 2 p.m.
NUR - NURSING SCHOOL, 1.118
(See description under 11-1:40 p.m.)

SCHOOL OF NURSING

Saving your Genes
Program repeats at 2 p.m.
NUR - NURSING SCHOOL, 1.106
(See description under noon to 12:40 p.m.)

TEXAS ADVANCED COMPUTING CENTER

Technology Petting Zoo for All Ages
Program repeats at noon, 1, 2 and 3 p.m.
POB - PETER O’DONNELL JR. BUILDING, 2.404A
(See description under 11-11:40 a.m.)

2–3:40 p.m.

COLLEGE OF PHARMACY

Interactive Opioid Overdose Rescue Training
Program repeats at 2 p.m.
PHR - PHARMACY BUILDING, 3.106
(See description under noon to 1:40 p.m.)

3–3:40 p.m.

MOODY COLLEGE OF COMMUNICATION

Comm for a Chat: A Panel Discussion with Moody Communication Students
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.206
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION

Comm Get Informed: Learn about Majors in the Moody College of Communication
Program repeats at noon, 1 and 2 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 3.204
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION

I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION

Texas Student Media Tour: The Daily Texan, Cactus Yearbook and Texas Travesty
Program repeats at noon, 1, 2, 3 and 4 p.m.
HSM - HEARST STUDENT MEDIA BUILDING, 2.122
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE

Architectural Origami
Program repeats at noon, 1, 2 and 3 p.m.
GOL - GOLDSMITH HALL, 4.120
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE

Creating Virtual Worlds
Program repeats at noon, 1, 2 and 3 p.m.
CMB - JESSE H. JONES COMMUNICATION CENTER - BUILDING B, 4.114
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE

I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)

SCHOOL OF ARCHITECTURE

Creating Virtual Worlds
Program repeats at noon, 1, 2 and 3 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)
### TIMED EVENTS

#### 3–3:40 p.m.

**SCHOOL OF ARCHITECTURE**  
**Spaghetti Structures**  
Program repeats at noon, 1, 2 and 3 p.m.  
**GOL - GOLDSMITH HALL, SW PATIO**  
(See description under 11:11:40 a.m.)

**UNIVERSITY OF TEXAS LIBRARIES**  
**Virtual Reality Painting**  
Program repeats at 2, 3 and 4 p.m.  
**DFA - E. WILLIAM DOTY FINE ARTS BUILDING, 3.200, THE FOUNDRY**  
(See description under 1-1:40 p.m.)

**COLLEGE OF EDUCATION**  
**Defining Autism and Teaching Students on the Spectrum**  
**SZB - GEORGE I. SÁNCHEZ BUILDING, 296**  
Learn about Autism Spectrum Disorders, lifelong neurological and developmental disorders that begin in childhood. Professor Terry Falcomata will share how teachers are educating affected students and the resources that are available to help.  
*Adults*  
*(See description under 11-11:40 a.m.)*

**COLLEGE OF LIBERAL ARTS**  
**Microscopic Madness: The Strange World of Quantum Physics**  
**CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.106**  
Wonder how the fundamental building blocks of nature work? Or, what the wave-particle duality of matter really is? Join Dr. Todd Krause to discover the weird behavior of matter at its smallest scale — maybe even learn how to bring a dead cat back to life.  
*(See description under 2-2:40 pm.)*

**COLLEGE OF LIBERAL ARTS**  
**Poetry Becomes Music: Mugham from Azerbaijan by Aqil Suleymanov**  
Program repeats at 1 and 3 p.m.  
**WAG - WAGGENER HALL, 101**  
(See description under 11:11:40 a.m.)

**COLLEGE OF LIBERAL ARTS**  
**The Hispanic and Latino Cultural Challenge**  
Program repeats at 4 p.m.  
**BEN - BENEDICT HALL, 1.126**  
Join us for a challenge to test your knowledge of famous Hispanic and Latino writers, painters and musicians. Identify food (beyond tacos) and share which breathtaking, mysterious, geographic or historic Latin American sight you would like to visit.

---

**MCCOMBS SCHOOL OF BUSINESS**  
**Brand Yourself**  
Program repeats at noon, 1, 2 and 3 p.m.  
**CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS**  
(See description under 11:11:40 a.m.)

**MCCOMBS SCHOOL OF BUSINESS**  
**Dress for Success**  
Program repeats at 3 p.m.  
**GSB - GRADUATE SCHOOL OF BUSINESS BUILDING, ATRIUM**  
(See description under 11:11:40 a.m.)

**MCCOMBS SCHOOL OF BUSINESS**  
**Fit to Be Tied**  
Program repeats at noon, 1, 2 and 3 p.m.  
**CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS**  
(See description under 11:11:40 a.m.)

**MCCOMBS SCHOOL OF BUSINESS**  
**The Price is Right**  
Program repeats at noon, 1, 2 and 3 p.m.  
**CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS**  
(See description under 11:11:40 a.m.)

**MCCOMBS SCHOOL OF BUSINESS**  
**Where in the World Will You Land?**  
Program repeats at noon, 1, 2 and 3 p.m.  
**CBA - MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS**  
(See description under 11:11:40 a.m.)

**COCKRELL SCHOOL OF ENGINEERING**  
**Cockrell School Technology and Traditions Tour**  
Program repeats at noon, 1, 2, 3 and 4 p.m.  
**EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 2ND FLOOR LOBBY**  
(See description under 1-1:40 p.m.)

**COCKRELL SCHOOL OF ENGINEERING**  
**Print-A-Cookie: Exploring 3-D Printing Technology**  
Program repeats at noon, 1, 2, 3 and 4 p.m.  
**R LM - ROBERT LEE MOORE HALL, 7.114**  
(See description under 11:11:40 a.m.)

**COCKRELL SCHOOL OF ENGINEERING**  
**Unmanned Aerial Vehicle Showcase**  
Program repeats at noon, 2 and 3 p.m.  
**WRW - W. R. WOOLRICH LABORATORIES, 208**  
(See description under 11-11:40 a.m.)

**COCKRELL SCHOOL OF ENGINEERING**  
**UTonomy: Drones That Fly Themselves**  
Program repeats at 1, 2 and 3 p.m.  
**WRW - W. R. WOOLRICH LABORATORIES, ROOF (ACCESS THROUGH EAST STAIRWELL)**  
(See description under 11-11:40 a.m.)

---

*(ACCESS THROUGH EAST STAIRWELL)*  
**WRW - W. R. WOOLRICH LABORATORIES, 202**  
Program repeats at 3 p.m.

---

**COCKRELL SCHOOL OF ENGINEERING**  
**Biomedical Engineering Prospective Student Session for 9th, 10th and 11th Graders**  
Program repeats at 3 p.m.

---

**COCKRELL SCHOOL OF ENGINEERING**  
**Heart Valve Modeling and Cardiovascular Engineering**  
Program repeats at 3 p.m.

---

**COCKRELL SCHOOL OF ENGINEERING**  
**Chemical Engineers and Science Demonstrations: Liquid Nitrogen Marshmallows and More**  
Program repeats at noon, 1, 2, 3 and 4 p.m.

---

**COCKRELL SCHOOL OF ENGINEERING**  
**Aerospace Chemical Engineers and Science Tricks: Elephant Toothpaste and Frozen Flowers**  
Program repeats at noon, 1, 2, 3 and 4 p.m.

---

**COCKRELL SCHOOL OF ENGINEERING**  
**Chemical Polymer Secrets: Playing with Plastic**  
Program repeats at noon, 1, 2, 3 and 4 p.m.

---

---

---
Discover How Computers Work
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 1.516
Join Dr. Yale Patt, University Distinguished Teaching Professor, member of the National Academy of Engineering, and specialist in computer architecture, to get the inside scoop on how a computer works from an expert in the field.

VISITOR CENTER
Campus Walking Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
BARBARA JORDAN STATUTE, CORNER OF 24TH STREET AND WHITIS AVENUE
(See description under 11-11:40 a.m.)

SCHOOL OF LAW
Gold E. Locke Mock Trial
Program repeats at 3 p.m.
CCJ - JOHN B. CONNALLY CENTER FOR JUSTICE, EIDMAN COURTROOM
(See description under 1-1:40 p.m.)

COLLEGE OF NATURAL SCIENCES
Brainstorms: A Conversation about Memory, Alzheimer’s, and Other Memory Disorders
Program repeats at 3 p.m.
POB - PETER O’DONNELL JR. BUILDING, 2.302
(See description under 2-2:40 pm.)

COLLEGE OF NATURAL SCIENCES: COMPUTER SCIENCE
Modernizing Websites
GDC - BILL AND MELINDA GATES COMPUTER SCIENCE COMPLEX AND DELL COMPUTER SCIENCE HALL, 2.216
Join us to learn more about developing high-quality websites with modern tools such as Flask, a micro web framework written in Python, and React, a JavaScript Library for building user interfaces. Discover these resources and much more.

COLLEGE OF NATURAL SCIENCES: COMPUTER SCIENCE
The Computer Science Roadshow: Computer Science Experience for K–6th Graders
Program repeats at 3 p.m.
GDC - BILL AND MELINDA GATES COMPUTER SCIENCE COMPLEX AND DELL COMPUTER SCIENCE HALL, 2.410
(See description under 11-11:40 a.m.)

COLLEGE OF PHARMACY
Hogwarts Jungle Potions Class
Program repeats at noon, 1, 2 and 3 p.m.
PHR - PHARMACY BUILDING, 3.110
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL
Extract DNA from Fruit
Program repeats at 1 and 3 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
(See description under noon to 12:40 p.m.)

DELL MEDICAL SCHOOL
Gel Electrophoresis: Separating DNA Molecules by Size
Program repeats at 3 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
(See description under noon to 12:40 p.m.)

SCHOOL OF NURSING
Welcoming Baby: Helping Siblings Prepare for a New Family Member
Program repeats at 3 p.m.
NUR - NURSING SCHOOL, 1.106
(See description under 2-2:40 pm.)

TEXAS ADVANCED COMPUTING CENTER
Technology Petting Zoo for All Ages
Program repeats at noon, 1, 2 and 3 p.m.
POB - PETER O’DONNELL JR. BUILDING, 2.404A
(See description under 11-11:40 a.m.)

4–4:40 p.m.

COLLEGE OF FINE ARTS
March with the Longhorn Band
STD - DARRELL K ROYAL-TEXAS MEMORIAL STADIUM, NEZ GATE 16 ENTRANCE, JOE JAMAIL FIELD
Join us to experience the thrill of marching with the Longhorn Band and become an honorary member. Following a rehearsal session on the field, participants will march to the UT Tower to participate in the biggest “class photo” in Texas.

HARRY RANSOM HUMANITIES RESEARCH CENTER
Guided Exhibition Tours of "Vaudeville"
Program repeats at 2 and 4 p.m.
HRC - HARRY RANSOM CENTER, GALLERIES
(See description under noon to 12:40 p.m.)
(continued)

4–4:40 p.m.

MOODY COLLEGE OF COMMUNICATION

I Could Do Better Than That: A Chance to Try Your Hand at Making Ads
Program repeats at noon, 1, 2, 3 and 4 p.m.
BMC - BELO CENTER FOR NEW MEDIA, 4.208
(See description under 11-11:40 a.m.)

MOODY COLLEGE OF COMMUNICATION

Texas Student Media Tour: The Daily Texan, Cactus Yearbook and Texas Travesty
Program repeats at noon, 1, 2, 3 and 4 p.m.
HSM - HEARST STUDENT MEDIA BUILDING, 2.122
(See description under 11-11:40 a.m.)

UNIVERSITY OF TEXAS LIBRARIES

Virtual Reality Painting
Program repeats at 2, 3 and 4 p.m.
DFA - E. WILLIAM DOTY FINE ARTS BUILDING, 3.200, THE FOUNDRY
(See description under 1-1:40 p.m.)

COCKRELL SCHOOL OF ENGINEERING

Cockrell School Technology and Traditions Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 2ND FLOOR LOBBY
(See description under 11-11:40 a.m.)

COLEGE OF LIBERAL ARTS

The Hispanic and Latino Cultural Challenge
Program repeats at 4 p.m.
BEN - BENEDICT HALL, 1.126
(See description under 3-3:40 p.m.)

COLEGE OF LIBERAL ARTS

Ukrainian Pop Music: A Performance Featuring SpivOberta
Program repeats at 2 and 4 p.m.
WAG - WAGGENER HALL, 101
(See description under noon to 12:40 p.m.)

COCKRELL SCHOOL OF ENGINEERING

Print-A-Cookie: Exploring 3-D Printing Technology
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7.114
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING

Building a Longhorn Rocket
Program repeats at noon, 1, 2, 3 and 4 p.m.
WRW - W. R. WOOLRICH LABORATORIES, 113
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING

Chemical Engineers and Science Demonstrations: Liquid Nitrogen Marshmallows and More
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
RLM - Robert Lee Moore Hall, 4.102
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING

Chemical Engineers and Science Tricks: Elephant Toothpaste and Frozen Flowers
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, PLAZA
RLM - Robert Lee Moore Hall, 6.104
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING

Polymer Secrets: Playing with Plastic
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.218
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

LED Butterflies
Program repeats at noon, 1, 2, 3 and 4 p.m.
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.824 AND 0.825
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL

Fun with Nuclear Fission: Chain Reaction Mouse Trap Mania and a LEGO Nuclear Reactor
Program repeats at noon, 1, 2, 3 and 4 p.m.
ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Cupcake Coring
Program repeats at noon, 1, 2, 3 and 4 p.m.
RLM - ROBERT LEE MOORE HALL, 7.116
(See description under 11-11:40 a.m.)

COCKRELL SCHOOL OF ENGINEERING: PETROLEUM AND GEOSYSTEMS

Jello-Fracking and Twinkie Drilling
Program repeats at noon, 1, 2, 3 and 4 p.m.
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.220
(See description under 11-11:40 a.m.)

SCHOOL OF UNDERGRADUATE STUDIES

What I Wish I Had Known Before Going to College: A Conversation with UT Students
Program repeats at 4 p.m.
MEZ - MEZES HALL, 2.118
(See description under 3-3:40 p.m.)

VISITOR CENTER

Campus Walking Tour
Program repeats at noon, 1, 2, 3 and 4 p.m.
BARBARA JORDAN STATURE, CORNER OF 24TH STREET AND WHITIS AVENUE
(See description under 11-11:40 a.m.)

DELL MEDICAL SCHOOL

Don't Skip a Beat
Program repeats at 4 p.m.
HLB - HEALTH LEARNING BUILDING, 1.111, 1ST FLOOR AUDITORIUM
(See description under 1-1:40 p.m.)

DELL MEDICAL SCHOOL

Learn about Cancer Cells Through Histology
Program repeats at 4 p.m.
HDB - HEALTH DISCOVERY BUILDING, 6.200, 6TH FLOOR LABORATORY
(See description under 1-1:40 p.m.)
ONGOING EVENTS

Come and go as you please during the duration of these continuous activities.

11 a.m. to 12:40 p.m.

SCHOOL OF UNDERGRADUATE STUDIES
Future Graduate Photo Booth
MAI - MAIN BUILDING, TOWER MEMORIAL GARDEN TURTLE POND
MAI - Main Building, 212, 2nd Floor Hallway
Whether you're in the Class of 2022 or 2032, it's not too early to start thinking about college graduation. Stop by to try on graduation regalia and have your photo taken by the Undergraduate Studies Ambassadors.

SCHOOL OF UNDERGRADUATE STUDIES
Undergraduate Research Video Gallery
FAC - PETER T. FLAWN ACADEMIC CENTER, VERANDA
FAC - Peter T. Flawn Academic Center, 1st Floor Hallway
Students at UT can engage in research starting their freshmen year. Join us to view these fun and creative videos made by student researchers to learn how student research can have a positive impact on the world.

TEXAS MEMORIAL MUSEUM
UT's Microscopic World
TMM - TEXAS MEMORIAL MUSEUM, 2.100
Discover the diversity of microscopic creatures living in aquatic habitats around the UT campus.

11 a.m. to 1:40 p.m.

COLLEGE OF FINE ARTS
Aztec Calendars from the Codices of Mexico
EAST MALL, NW CORNER
Join members of the Mesoamerica Center to learn how the ancient Aztec wrote their calendar. Participants may take home a mini-coloring book related to their birthday.

11 a.m. to 2:40 p.m.

COLLEGE OF EDUCATION
Austin Independent School District (AISD) 5th Grade Volleyball Play Day
RSC - RECREATIONAL SPORTS CENTER, GYMNASIUM
Cheer on over 1,000 AISD, 5th grade volleyball players from across the city as they have fun participating in clinics and team play. Play Day Partners include Austin Association for Physical Education and Recreation, Recreational Sports and UT Athletics.

COLLEGE OF LIBERAL ARTS
UTeach-Liberal Arts Photo Booth
EAST MALL
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1st Floor Hallway
Celebrate education with members of UTeach-Liberal Arts, a professional middle and high school teacher preparation program. Future Longhorns can have their picture taken and learn more about the UTeach program.

JACKSON SCHOOL OF GEOSCIENCES
Finding Gold
EAST MALL
Old time prospectors found gold in ordinary-looking stream deposits and knew the trick to discovery is density. Try your hand at panning our pyrite-spiked load and take your find home with you. Limited to 15 people at a time.

COLLEGE OF FINE ARTS
Steamroller Madness: Making Texas-Size Prints with a Steamroller
ART - ART BUILDING AND MUSEUM, NORTH COURTYARD
ART - Art Building and Museum, 2.308 and 2.210
Watch art being made by using an industrial-size steamroller as a press to imprint Texas-size art patterns onto the canvas. Presenters include faculty and students from UT, Austin Community College, St. Edward's University and Texas State University.

MOODY COLLEGE OF COMMUNICATION
KUT Public Media Studio Tours
BMC - BELO CENTER FOR NEW MEDIA, 1.108
Join us for tours of the KUTX performance Studio 1A where nationally touring and local acts perform, the KUT Newsmaker Studio where Central Texas newsmakers participate in interviews for the likes of NPR and the BBC, and the Texas Standard Studio.

COLLEGE OF LIBERAL ARTS
Adventures in Archeology
EAST MALL
SAC - Student Activity Center, 4th Floor Hallway
Meet a skeleton and experience the past through several hands-on activities. You can watch as stone tools are made, learn how to grind corn on prehistoric metates and make jewelry in a prehistoric style.

COLLEGE OF LIBERAL ARTS
Linguistics for All
CLA - COLLEGE OF LIBERAL ARTS BUILDING, 1.102
People use speech to communicate every day but few stop to think how it works or what happens when you know more than one language. Join members of the UT Sound Lab for interactive activities examining how we produce and perceive sounds across languages.

COCKRELL SCHOOL OF ENGINEERING: MECHANICAL
Exploiting Nanophotonics: Lighting a Path to a Better World
ETC - ENGINEERING TEACHING CENTER II, 2.125, T-ROOM
Visit this display by Dr. Yuebing Zheng to discover how nanophotonics research, and understanding the fundamental principles of nanoscale light-matter interactions, can be used as a tool for early disease diagnosis, therapy and brain activity mapping.

UNIVERSITY OF TEXAS LIBRARIES
Build the Structure: Model Plans for Successful Engineering
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, ANWAR LEARNING CENTER, MCKINNEY ENGINEERING LIBRARY
Stop by the Anwar Learning Center and show off your engineering ability by building models based on structural plans selected from the McKinney Engineering Library, one of the top academic engineering libraries in the United States.

FIRE PREVENTION SERVICES
Sparky the Fire Dog Photo Booth
SAC - STUDENT ACTIVITY CENTER, SOUTH CENTRAL LOBBY
Meet Sparky, the National Fire Protection Association's (NFPA) official mascot and spokesdog. Get your photo taken with Sparky and take home a souvenir commemorating the event.
(continued)

11 a.m. to 2:40 p.m.

COLLEGE OF PHARMACY
Project Collaborate: Free Health Screening
PHR - PHARMACY BUILDING, 3.114
Join current College of Pharmacy students to take advantage of basic health screening services. We’ll check your weight, height, blood pressure, glucose and cholesterol levels and can discuss the significance of those results.

JACKSON SCHOOL OF GEOSCIENCES
What To Do With CO2: Cures for the Feverish Earth
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.324, BOYD AUDITORIUM HALLWAY
Why is our planet warming? Learn about the challenges being faced and explore ways of developing a solution for this global problem. The session will also investigate storing CO2 through geologic sequestration. Limited to 15 people per presentation.

Freshman Research Initiative Showcase
COLLEGE OF NATURAL SCIENCES
WEL – ROBERT A. WELCH HALL
As a tier-one research university, UT Austin is committed to expanding the vital role research plays in the education of students. The College of Natural Sciences’ pioneering Freshman Research Initiative (FRI) provides the opportunity for students to initiate and engage in real-world research experiences with faculty and graduate students during their first year of study. This program has become a national model for science education, and is encouraging students to stay in college and to complete science and math degrees.

The Freshman Research Initiative Showcase will allow visitors to meet current FRI students, tour real working research labs and explore hands-on science and displays behind the nation’s largest undergraduate research program. Several unique programs are identified under this title within the Science listings in the Explore UT schedule. Join students to explore unanswered questions in science, math and technology and to learn how they uncover new knowledge and develop innovative technologies. See pages 31-32.

BLANTON MUSEUM OF ART
Self-Discovery at the Blanton
BMA - BLANTON MUSEUM OF ART
Where does your passion lie? Explore the temporary exhibition, Form into Spirit: Ellsworth Kelly’s ‘Austin’, and engage in interactive gallery conversations and art making activities while examining the idea of how art can help us find our passions.

COLLEGE OF FINE ARTS
3-D Mask Making for Teens
PAC - PERFORMING ARTS CENTER, BASS CONCERT HALL, 4TH FLOOR LOBBY
Learn about 3-D design by cutting out, decorating and assembling a pre-printed mask. Mask options include an alien, cat, skull, or dragon, and you’ll need a little time (30 minutes) and patience to create, but they are worth the effort. Space is Limited.

11 a.m. to 3:40 p.m.

COLLEGE OF NATURAL SCIENCES
Freshman Research Initiative
SWEL – ROBERT A. WELCH HALL
As a tier-one research university, UT Austin is committed to expanding the vital role research plays in the education of students. The College of Natural Sciences’ pioneering Freshman Research Initiative (FRI) provides the opportunity for students to initiate and engage in real-world research experiences with faculty and graduate students during their first year of study. This program has become a national model for science education, and is encouraging students to stay in college and to complete science and math degrees.

The Freshman Research Initiative Showcase will allow visitors to meet current FRI students, tour real working research labs and explore hands-on science and displays behind the nation’s largest undergraduate research program. Several unique programs are identified under this title within the Science listings in the Explore UT schedule. Join students to explore unanswered questions in science, math and technology and to learn how they uncover new knowledge and develop innovative technologies. See pages 31-32.

COLLEGE OF FINE ARTS
Bass Concert Hall Backstage Tour
PAC - PERFORMING ARTS CENTER, BASS CONCERT HALL, 1ST FLOOR LOBBY
Join us for a backstage tour of Texas Performing Arts. On this tour you will get to see Bass Concert Hall, hidden backstage areas and passageways, production shops that help support UT student productions throughout the year, and more.

COLLEGE OF FINE ARTS
Explore Landmarks: The University of Texas at Austin Public Art Program
PAC - PERFORMING ARTS CENTER, BASS CONCERT HALL, 1ST FLOOR LOBBY
Learn and engage with the renowned public art collection at UT. Student docents and volunteers will share Landmarks maps and activity guides for children and teens. Projects are located throughout campus. For more information visit landmarks.utexas.edu.

COLLEGE OF FINE ARTS
Make Your Own Book Structures
PAC - PERFORMING ARTS CENTER, BASS CONCERT HALL, 4TH FLOOR LOBBY
Explore the structures of covered books and accordion fold books. Create your own narrative by choosing from multiple designs and testing your skills to craft either a stitched or folded book. This advanced activity requires 20 minutes per book.
SCHOOL OF ARCHITECTURE
Robotics, Lasers and 3-D Models
SUT - SUTTON HALL, 1.102
Explore the cool tools that architects use at the School of Architecture's Technology Lab. This session will include a series of micro presentations on 3-D printing, 3-D scanning, Computer Numerical Control (CNC) routing, laser cutting and robotic arms.

SCHOOL OF ARCHITECTURE
Shape Your Community: Participate in Planning Your City
GOL · GOLDSMITH HALL, 2.110
Learn how participatory mapping can give residents the freedom to choose what amenities should be in their neighborhoods and the positive and negative effects of these decisions. See how the effects of land use decisions can shape your community.

SCHOOL OF ARCHITECTURE
Sketchbook Creation
GOL · GOLDSMITH HALL, 3.118
The sketchbook is one of architects’ many tools in converting and emitting ideas. Join members of the National Organization of Minority Architecture Students (NOMAS) to create your own sketchbook from laser cut templates.

COLLEGE OF EDUCATION
If You Can Read This, Thank a Teacher
SZB · GEORGE I. SÁNCHEZ BUILDING, 2ND FLOOR LOBBY
We’ll provide all the supplies you need to write a brief thank you note to a teacher who has made a difference in your life. You’ll also be able to talk to students studying Special Education at UT about why they are becoming Texas Teachers.

MCOMBS SCHOOL OF BUSINESS
Career-Go-Round
CBA · MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
This spin on musical chairs is a fun and energetic way to learn about different career paths in business. Participants walk around a path in time to music until a career square is called out. The person standing on the right square wins a prize.

MCOMBS SCHOOL OF BUSINESS
Let’s Communicate
BMC - BELO CENTER FOR NEW MEDIA, 2ND FLOOR LOBBY
Join us to learn about the numerous and different ways individuals with and without disabilities communicate. You can explore the interaction of words, gestures, signs, pictures, text, technology and other tools that help us all convey messages.

MCOMBS SCHOOL OF BUSINESS
Sketchbook Creation
GOL · GOLDSMITH HALL, 3.118
The sketchbook is one of architects’ many tools in converting and emitting ideas. Join members of the National Organization of Minority Architecture Students (NOMAS) to create your own sketchbook from laser cut templates.

MCOMBS SCHOOL OF BUSINESS
Career-Go-Round
CBA · MCCOMBS SCHOOL OF BUSINESS, HALL OF HONORS
This spin on musical chairs is a fun and energetic way to learn about different career paths in business. Participants walk around a path in time to music until a career square is called out. The person standing on the right square wins a prize.

ONGOING EVENTS

11 a.m.

Noon

1 p.m.

2 p.m.

3 p.m.

4 p.m.

(continued)

11 a.m. to 3:40 p.m.

COLLEGE OF NATURAL SCIENCES
Freshman Research Initiative Showcase: Introducing Nanochemistry
WEL - ROBERT A. WELCH HALL, 2.110
Join Nano Chemistry research stream members to explore the world of nanometers and nanochemistry. Shrink matter down to this micro scale - 10,000 nanoparticles can fit across the width of a human hair - and learn why researchers work in nanometers.

COLLEGE OF NATURAL SCIENCES
Freshman Research Initiative Showcase: Revealing How Plants Talk, Move and Feel
WEL - ROBERT A. WELCH HALL, 2.110
Join Dr. Gregory Clark and researchers from the Sarah Simmons Cell Signaling team to learn how plants have unexpected abilities to sense stimuli and "talk with" each other and with animals. This display highlights these abilities using time-lapse videos.

COLLEGE OF NATURAL SCIENCES
Freshman Research Initiative Showcase: Fun with Fungi
WEL - ROBERT A. WELCH HALL, 2.110
Join students in the Bioprospecting research stream to learn about endophytic fungi, a type of fungi that resides in nearly all plant tissue without causing visible signs of harm. Explore their potential application for use in medicine and agriculture.

COLLEGE OF NATURAL SCIENCES
Freshman Research Initiative Showcase: Microbe Hackers
WEL - ROBERT A. WELCH HALL, 2.110
Learn how students in the Microbe Hacking research stream reprogram microorganisms, the unparalleled masters of building and breaking down chemical compounds, to perform functions beneficial to society. You can even paint with glow-in-the-dark microbes.

COLLEGE OF NATURAL SCIENCES
Freshmen Research Initiative Showcase: Reaction Demonstrations and Crystal Structures
WEL - ROBERT A. WELCH HALL, 2.104
Tour a working research laboratory and see live experiments, complete with reaction demonstrations and formation of crystal structures in Dr. Lauren DePue's Luminators research stream. Lab tours will begin on the hour and occur every 20 minutes.

COLLEGE OF NATURAL SCIENCES
Freshmen Research Initiative Showcase: Synthesis and Biological Recognition
WEL - ROBERT A. WELCH HALL, 2.104
Experience a "day in the life" of an organic chemist with members of Dr. Elizabeth Ilardi's Bioactive Molecules research stream. Demonstrations will showcase the research of molecular interaction with proteins. Tours every 20 minutes.

COLLEGE OF NATURAL SCIENCES
UTeach Natural Sciences: Preparing the Next Generation of Secondary STEM Teachers
WEL - ROBERT A. WELCH HALL, 2.110
Join current students in the UTeach teacher preparation program to learn more about the UTeach Program Curriculum. The group will share hands-on lessons for Science, Technology, Engineering and Mathematics (STEM) education.

COLLEGE OF PHARMACY
Junior Bevo Safari Adventure
PHR - PHARMACY BUILDING, 2.214
Elementary-aged children can explore the jungle of pharmacy through games and other jungle themed activities.

COLLEGE OF PHARMACY
Mapping Your Way to a Pharmacy Education and Career
PHR - PHARMACY BUILDING, 3RD FLOOR WALKWAY
Meet with pharmacy counselors to discuss academic choices and career opportunities in pharmacy.

Dell Medical School
Inside Out
HLB - HEALTH LEARNING BUILDING, 2.106
Join us for a hands-on experience using an endoscope in a colonoscopy simulation. Dell Med students will assist and explain the methods used in the procedure.

Dell Medical School
Somebody Call 911!
HLB - HEALTH LEARNING BUILDING, PARKING LOT 108
Take a look inside emergency vehicles with a hands-on demonstration of the units that aid in car accidents, mass injuries and trauma. Emergency medical technicians (EMTs) will discuss their roles in maneuvering and working in each vehicle.

Jackson School of Geosciences
Bats, Bees and Butterflies: Creating a Pollination Station
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2ND FLOOR HALLWAY
Discover what pollinators do and why they are important for our environment. Then, use your creativity to create a flower that attracts certain pollinators. Parents and educators can discover innovative STEM programs for K-12 students and the community.

Jackson School of Geosciences
Exploring Oil
EAST MALL
Learn the methods geologist use to explore for oil beneath the surface of the earth and test your skills in drilling for oil. You'll also discover that many items that we use on a daily basis are made of petroleum based products.

Jackson School of Geosciences
Gems and Minerals of the Vargas and Barron Collections
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.318
Tour two collections of over 1,000 gemstones and minerals from all over the world. Take a closer look at these eye-catching specimens, from amethyst to zircon, and learn about the unique sub-collections that include twinned crystals and synthetic gems.

Jackson School of Geosciences
Geology on the Big Screen
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, 2.324, BOYD AUDITORIUM
Join us to enjoy several informative and entertaining documentaries covering the geosciences. Projected in sequence on the big screen in the Boyd Auditorium, films will include the 2017 documentary, "The Day the Dinosaurs Died."

Jackson School of Geosciences
Make Your Own Earthquake
JGB - JACKSON GEOLOGICAL SCIENCES BUILDING, EAST MALL COURTYARD
Jumping on the ground generates a motion within the earth's subsurface similar to an earthquake and creates sound waves that can be measured. Start your own earthquake to see how fast the waves travel and what they tell us about the rocks underground.
11 a.m. to 4:40 p.m.  

**MOODY COLLEGE OF COMMUNICATION**  
Comm Explore With Us  
BMC - BELO CENTER FOR NEW MEDIA, 2ND FLOOR LOBBY  
Explore the exciting world of communication. Find out about major fields of study and career opportunities in advertising, communication sciences and disorders, communication studies, journalism, public relations and radio-televisión-film.

**MOODY COLLEGE OF COMMUNICATION**  
KVRX Student Radio and Texas Student Television Tour  
HSM - HEARST STUDENT MEDIA BUILDING, 4TH FLOOR LOBBY  
Join us for a tour of UT’s student radio and television’s studio facilities. As a part of this fun tour, you can view co-productions of TSTV/KVRX recordings in-studio, hear lectures and have the opportunity to engage in hands-on activities.

**CLA - College of Liberal Arts Building, 1st Floor Hallway**  
**Children's International Festival: Ancient Ecuadorian Designs**  
Join Dr. Kaya De Barbaro and McKensy Johnson in the Daily Activity Lab for demonstrations and visualizations of their research utilizing mobile and wearable sensors to study the daily experiences important for infant development and caregiver well-being.  

**CLA - College of Liberal Arts Building, 1st Floor Hallway**  
**Children's International Festival: Make Your Own European Flag**  
Learn about the flags of Western Europe and the European Union. Choose the flag of your favorite country and make one to take home.

**CLA - College of Liberal Arts Building, 1st Floor Hallway**  
**Children's International Festival: Make Your Own Folding Matryoshka Doll**  
Matryoshka dolls are intricately painted, wooden nesting dolls that are given as popular gifts and souvenirs in Russia. Traditional matryoshka dolls have rich symbolism, including folk designs and colors. Decorate your own paper-folding matryoshka dolls.
(continued)
11 a.m. to 4:40 p.m.

COLLEGE OF LIBERAL ARTS
Exploring the Broad Spectrum of Psychology
PAR - PARLIN HALL, 105
Join us for fun, interactive games and to visit with graduate students studying psychology. You’ll learn about intriguing human brain research being conducted at UT as well as the numerous career opportunities available in the field of psychology.

COLLEGE OF LIBERAL ARTS
Medieval Children’s Crafts
EAST MALL
CLA - College of Liberal Arts Building, Hallway
Discover how symbols on shields during the medieval time period helped to identify who was behind the armor. Create your own medieval shield or crown to let people know more about you.

COLLEGE OF LIBERAL ARTS
Straw Painting
EAST MALL
CLA - College of Liberal Arts Building, 1st Floor Hallway
Create art with members of the Children’s Research Center in a fun and hands-on, STEAM (Science, Technology, Engineering, Arts, Math) activity. You’ll be able to craft unique designs and paint a work of art by using straws to blow paint onto paper.

COLLEGE OF LIBERAL ARTS
Tracking Prehistoric Humans
CLA - College of Liberal Arts Building, 1.302B
Examine a reconstruction of 3.6-million-year-old footprints. Lay down your own tracks in an experiment testing how accurately we can reconstruct the stature and size of ancient hominids. You’ll also be able to examine multiple fossil skulls.

COLLEGE OF LIBERAL ARTS
Wheel of Majors
EAST MALL
CLA - College of Liberal Arts Building, Hallway
Step right up. Spin the “Wheel of Majors” and learn about what the College of Liberal Arts has to offer. You will receive an honorary diploma and a taste of what you might learn in some of our diverse areas of study.

COLLEGE OF LIBERAL ARTS
Write Here, Write Now
PCL - PERRY-CASTÁÑEDA LIBRARY, 2.330,
UNIVERSITY WRITING CENTER
If there is a poem inside you that's dying to get out, University Writing Center consultants will help you get it down on paper. Just for fun, we can also help you write a short piece for a personalized button or wrangle with a round of Typewriter Rodeo.

COCKRELL SCHOOL OF ENGINEERING
Back to the Future: Engineering Hover Crafts
ECJ - ERNEST COCKRELL JR. HALL, 1.202
Join students from the Society of Women Engineers for a “back to the future” experience. Experiment with the science of aerodynamics and magnetic properties and add engineering concepts to design and create your very own hover craft.

COCKRELL SCHOOL OF ENGINEERING
Create a Puff-Mobile and Test Your Wind Energy in Blowing it as Far as Possible
ECJ - ERNEST COCKRELL JR. HALL, 1.308
Join the Society of Asian Scientists and Engineers to design and create your own puff-powered vehicle using simple materials. Take a deep breath, blow, and see how far your puff-mobile will go.

COCKRELL SCHOOL OF ENGINEERING
Experience Automotive Engineering: A Driving Simulator and Car Show
NOA - NORTH OFFICE BUILDING A, F-92 PARKING LOT
Meet student members of the Society of Automotive Engineers to learn more about automotive engineering. Those in the 4th grade or older can try out a driving simulator and kids of all ages can discover what goes into designing, building, and racing a car.

COCKRELL SCHOOL OF ENGINEERING
Exploring Energy with Water Wheels, Hand Cranks, Solar Toys and More
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, LOWER LEVEL ATRIUM
Join student members of the Longhorn Energy Club for a “powerful” program. You can use water wheels, hand cranks and solar toys to generate energy while learning about the origins of the energy that powers light bulbs, microwaves and iPhones in your home.

COCKRELL SCHOOL OF ENGINEERING
Heavy Loads: Determining How Much Weight A Bridge Design Can Support
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 1.528
Refine your engineering skills in creating a strong bridge design with students from the National Society of Black Engineers. Design your bridge and test how much weight it can support. Adapt the design and test again to see if it can hold even more.

COCKRELL SCHOOL OF ENGINEERING
Making Fish Fly: A Goldfish Catapult
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, 2.206
Explore engineering with members of Theta Tau Professional Engineering Fraternity. Create a catapult using rubber bands, craft sticks and spoons. Test it to see if your goldfish cracker’s flight distance qualifies for the Goldfish Catapult Hall of Fame.

COCKRELL SCHOOL OF ENGINEERING
Medieval Engineering: The Trebuchet
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
Join members of Tau Beta Pi, the national engineering honors society to test your skills using the trebuchet, a medieval launching machine. You’ll be able to launch water balloons across the lawn with a mighty swing as you try to hit the target.
elements that make satellites work through hands-on activities using inexpensive hardware analogs. Space is limited.

COCKRELL SCHOOL OF ENGINEERING: AEROSPACE
WIALD About Aerospace: Creating Neutral Buoyancy
WRW - W. R. WOOLRICH LABORATORIES, PLAZA
Join members of the Women in Aerospace for Leadership and Development (WIALD) student organization for an interactive program to design and build a neutrally buoyant diver and find out more about NASA's Neutral Buoyancy Laboratory.

COCKRELL SCHOOL OF ENGINEERING: BIOMEDICAL
Circuits Circus
RLM - ROBERT LEE MOORE HALL, 5.116
Discover how circuits work through fun and simple hands-on activities led by students from the Biomedical Outreach and Leadership Team (BOLT). Build circuits of your own to play music, design games, and much more.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Dancing Polymers
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
Chemical engineering students in Omega Chi Epsilon, a chemical engineering honor society, will show how their dancing polymers can change and move to music. One second, it’s a liquid, the next, it’s a solid. It’s all about the moves.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
The Slimy, Non-stick, Oozing Science of Slime
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, PLAZA
Slime oozes between your fingers when you pick it up, yet doesn’t stick to your skin. Sometimes it acts like a liquid and other times it appears to be a solid. Explore the science of slime with Undergraduate Chemical Engineering Women (UChEW) students.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Dancing Polymers
CPE - CHEMICAL AND PETROLEUM ENGINEERING BUILDING, PLAZA
Chemical engineering students in Omega Chi Epsilon, a chemical engineering honor society, will show how their dancing polymers can change and move to music. One second, it’s a liquid, the next, it’s a solid. It’s all about the moves.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Building Blocks: A Wooden Block Skyscraper Challenge
RLM - Robert Lee Moore Hall, 6.112
Slime oozes between your fingers when you pick it up, yet doesn’t stick to your skin. Sometimes it acts like a liquid and other times it appears to be a solid. Explore the science of slime with Undergraduate Chemical Engineering Women (UChEW) students.

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Creating a “Vision” for Connected and Autonomous Vehicles
NOA - NORTH OFFICE BUILDING A, F-92 PARKING LOT
Join students in the Center for Transportation Research to explore intelligent transportation systems, their use in the future and to learn what and how a connected and autonomous vehicle “sees.”

COCKRELL SCHOOL OF ENGINEERING: CHEMICAL
Creating the Ultimate Gumdrop Dome
ECJ - ERNEST COCKRELL JR. HALL, 1.306
Join students from Chi Epsilon, the civil engineering honor society. Test your skills at building a skyscraper out of wooden blocks to see how high you can make the structure go.
(continued)
11 a.m. to 4:40 p.m.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Designing Our World Through Architectural Engineering
ECJ - ERNEST COCKRELL JR. HALL, PLAZA
Join students from the Architectural Engineering Institute to explore a construction site and learn how architectural engineers design our world. You'll be able to create your own buildings, bridges and skyscrapers using LEGO blocks and your imagination. K 4-7

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Earthquake Engineering Research: Protecting People and Property from What’s Shaking
ECJ - ERNEST COCKRELL JR. HALL, 2ND FLOOR HALLWAY
Design a building using toothpicks and marshmallows and test it in earthquake conditions. Visit with students in the EERI and the SEAsT to learn how earthquake and structural engineering research protects people and property from earthquakes. K Under 12

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Environmental Sensing with Arduino
ECJ - ERNEST COCKRELL JR. HALL, 2.218
Join Professor Zoltan Nagy to see how an Arduino microcontroller board can be used to interface sensors (for lighting, temperature, humidity), with control actuators (displays, thermostats). Learn how to create simple programs to affect your environment. Teens

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Exploring the Magical Wonders of Concrete: Concrete Cooking, Explosions and More
ECJ - ERNEST COCKRELL JR. HALL, PLAZA
Join student members of the American Concrete Institute to explore the magic of concrete. Watch an egg fry on a slab of freshly mixed concrete, learn the difference between concrete and cement, and experience the wonder of concrete that floats.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Making Earthquakes with T-Rex
ECJ - ERNEST COCKRELL JR. HALL, LOADING DOCK
Discover how engineering research can help make us safer during earthquakes. Experience the power of T-Rex, a large hydraulic vehicle that can generate an earthquake, and learn how the simulation helps engineers design earthquake resistant structures.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Shake It Up: Earthquake Towers
ECJ - ERNEST COCKRELL JR. HALL, 1.312
Explore civil engineering with members of the Women in Civil Engineering student organization and learn how engineers help protect us from natural disasters. Engineer and create a tower to withstand the shaking and shifting, earthquake tower table. K Under 12

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Structural Interdependence: Marble Maze Madness
ECJ - ERNEST COCKRELL JR. HALL, 1.314
Test your mad skills in evaluating actions and reactions within an interdependent system of marble mazes full of obstacles. If one part fails, the marble can't continue and other parts of the maze fail as well. Help avoid complete marble maze madness.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Thinking Outside of the Sandbox: The Engineering Challenge of Soil
ECJ - ERNEST COCKRELL JR. HALL, PLAZA
Join Professor Heath on navigation algorithms which use only on-board sensors to decide a trajectory and avoid obstacles during the flight of a UAV.

COCKRELL SCHOOL OF ENGINEERING: CIVIL, ARCHITECTURAL AND ENVIRONMENTAL

Transportation: Getting You Where You Want to Go
ECJ - ERNEST COCKRELL JR. HALL, 1.214
Join students in the Institute of Transportation Engineers and Women’s Transportation Seminar to learn how to manage traffic signals and keep traffic flowing safely. Try to get all traffic through the intersection accident free, and before time runs out.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Driving Robots
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, LOWER LEVEL ATRIUM
Join students in the Robotics and Automation Society to learn about the field of robotics. You'll be able to see automation in action with outdoor robotics and small-scale robots.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Electrical Engineers: Powering the World
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, LOWER LEVEL ATRIUM
Join students from the Institute of Electrical and Electronics Engineers (IEEE) Power and Energy Society to discover how you can power the world. You can earn more about building a Tesla coil, a wireless charger, or creating a microgrid.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Engineering Potato Clocks
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 1.508
Join students from the Institute of Electrical and Electronic Engineers to explore circuits and engineering design. Engineer a digital clock using potatoes.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Just Keep Motoring
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 1.508
Explore motor power by making a small DC (direct current) motor using magnets and batteries. You can just keep motoring with students from Eta Kappa Nu, Electrical and Computer Engineering Honor Society. K Under 12

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Sensing and Navigation with Unmanned Aerial Vehicles (UAV)
NOA - NORTH OFFICE BUILDING A, F-92 PARKING LOT
Come see a project in the UT Situation-Aware Vehicular Engineering Systems (SAVES) initiative directed by Dr. Robert Heath on navigation algorithms which use only on-board sensors to decide a trajectory and avoid obstacles during the flight of a UAV.

COCKRELL SCHOOL OF ENGINEERING: ELECTRICAL AND COMPUTER

Using the Millimeter Wave for 5G Wireless Communication and Beyond
NOA - NORTH OFFICE BUILDING A, F-92 PARKING LOT
Join the UT Situation-Aware Vehicular Engineering Systems (SAVES) initiative
directed by Dr. Robert Heath for a visualization of how antenna beam patterns change as a car moves in a millimeter wave vehicular communication system.

**Cockrell School of Engineering: Mechanical Engineering**

**Catapultime Challenge**

ETC - Engineering Teaching Center II, 2.136

Join students from the American Society of Mechanical Engineers for the catapultime challenge. Apply your engineering design skills and create a wooden catapult to launch cotton balls and pom pom balls.

**Cockrell School of Engineering: Mechanical Engineering**

**Clean Energy and More: Electrochemical Science and Engineering All Around Us**

ETC - Engineering Teaching Center II, 2.125, T-ROOM

Explore how electrochemical science and engineering has led to developments in clean energy, surface coatings, corrosion prevention, advanced electrochemical characterization techniques and more.

**Cockrell School of Engineering: Mechanical Engineering**

**Creating Speedy Candy Cars: A Wind-Powered Car Race**

ETC - Engineering Teaching Center II, 2.114

Create small cars out of paper, straws, tape and candy with student members of Pi Tau Sigma, a national mechanical engineering honor society. Engineer it for speed and test how far your wind-powered candy car will go with just one puff of your breath.

**Cockrell School of Engineering: Mechanical Engineering**

**Foster Engine Collection**

ETC - Engineering Teaching Center II, 2.125, T-ROOM

Explore the Foster Engine Collection, a historical, working-model engine collection donated by engineer and artist R. Don Foster. Join Pi Tau Sigma honor students to discover the history of engines from the Persian windmill to the steam turbine engine.

**Cockrell School of Engineering: Mechanical Engineering**

**Hot Stuff: Infrared Imaging for Thermal Visualization**

ETC - Engineering Teaching Center II, 2.102

Join Dr. Li Shi to see some hot stuff, literally. Get a thermal look at life by taking your picture with an infrared camera or watching heat-engines turn on fans and power light bulbs. To cool things off, we’ll freeze banana peels using liquid nitrogen.

**Cockrell School of Engineering: Mechanical Engineering**

**Little Things Matter: Powerful Machines at Nanoscales**

ETC - Engineering Teaching Center II, 9.122

Discover incredibly small configurations known as nanostructures through several demonstrations on nanotechnology. You can learn how nanostructures make up the colors of peacock feathers and watch the intriguing operations of nanoscale rotary motors.

**Cockrell School of Engineering: Mechanical Engineering**

**Mechanical Engineering Graduate Student Board Information Table**

ETC - Engineering Teaching Center II, Plaza

Visit with graduate students from the Mechanical Engineering Graduate Student Board to learn more about opportunities available within the discipline. You can ask questions and get a first-hand perspective from current students.

**Cockrell School of Engineering: Mechanical Engineering**

**Optical Magic**

ETC - Engineering Teaching Center II, 2.130

Join Dr. Yaguo Wang and her students to explore the magic of optics by using lenses, microscopes and kaleidoscopes to manipulate light. Learn how light manipulation allows researchers to transport information quickly and accurately over long distances.

**Cockrell School of Engineering: Mechanical Engineering**

**Parachute Parade: Engineer a Parachute to Land a Toy Animal Safely**

ETC - Engineering Teaching Center II, 2.132

Join students from the Women in Mechanical Engineering program for a parade of parachutes. Test your engineering skills to design, create and test a parachute that will ensure safe landing for a toy animal.

**Cockrell School of Engineering: Mechanical Engineering**

**Surrounded by Materials**

ETC - Engineering Teaching Center II, 2.125, T-ROOM

Explore how materials engineering has impacted our lives through hands-on demonstrations and activities led by the Materials Research Society and the Materials Interdisciplinary Research Team. Learn how new materials are making our world a better place.

**Cockrell School of Engineering: Mechanical Engineering**

**The Laboratory for Freeform Fabrication: 3-D Printing**

ETC - Engineering Teaching Center II, Lobby

Join Dr. David Bourell to discover 3-D printing and how the Laboratory for Freeform Fabrication improves processes for the manufacture of geometrically and functionally complex objects through precise application of energy and materials in space and time.

**Cockrell School of Engineering: Mechanical Engineering**

**The Reinvention of Silk Materials**

ETC - Engineering Teaching Center II, Lobby

Visit a display by Dr. Hu Tao to discover how silk, and new application of silk-based materials, is serving as a broad inspiration to further develop biological foundries for the synthesis and processing of Nature’s materials for high tech applications.

**Cockrell School of Engineering: Mechanical Engineering**

**Using Emerging Nanoscience to Tackle Grand Energy and Environmental Challenges**

ETC - Engineering Teaching Center II, 2.125, T-ROOM

Join Dr. Guihua Yu to explore how nanoscale science and technology can help to address one of the 21st century's greatest challenges - developing renewable energy. You’ll see practical demonstrations using solar cells, batteries and microbial fuel cells.

**Cockrell School of Engineering: Petroleum and Geosystems**

**Design, Build and Test Heron’s Fountain and Pop-Pop Boats**

CPE - Chemical and Petroleum Engineering Building, Plaza

Join student members of the Geosystems Engineering and Hydrogeology Association to learn how to build a fountain using the basic flow principle of total head. You can also design, build and test Pop-Pop boats that use simple, candle-powered heat engines.
ONGOING EVENTS

1 p.m.

College Bingo
GRE - GREGORY GYMNASIUM, PLAZA
Join us for a fun game that explorers of all ages can enjoy. Each bingo sheet has nine symbols or pictures that represent college readiness or images from the UT campus. Be the first to get three in a row, in any direction, to win in college bingo.

11 a.m.

Brailling machine in action to learn how Braille is made and take home a piece of paper with your name spelled out in Braille.

11 a.m.

College Twister Competition
GRE - GREGORY GYMNASIUM, PLAZA
Join us for an exciting twist on the game of Twister in which each circle represents a different college in Texas. Play to win prizes while challenging your friend or family member's knowledge of Texas' universities. Fun photo moments are guaranteed.

3 p.m.

Diversity Abroad Showcase
GRE - GREGORY GYMNASIUM, PLAZA
Would you like to study abroad? Join the diverse UT students in the Longhorn Center for Academic Excellence and the Equal Opportunity in Engineering Programs to learn about their international experiences and start to envision yours.

4 p.m.

UT Diversity and Community Engagement Informational Booth
GRE - GREGORY GYMNASIUM, PLAZA
Learn more about the exciting initiatives and resources we offer that seek to foster a culture of excellence through diverse people, ideas and perspectives. We engage in dynamic community-university partnerships designed to transform our lives.

4 p.m.

Future Longhorn Student ID
FAC - PETER T. FLAWN ACADEMIC CENTER, 1ST FLOOR, ID CENTER
It is never too early to envision and start identifying yourself as a Longhorn. Stop by the UT Austin ID Center to obtain a “Future Longhorn” Student ID Card.

INTERCOLLEGIATE ATHLETICS

A Walk Down Trophy Row
STD - DARRELL K ROYAL-TEXAS MEMORIAL STADIUM, NEZ GATE 16 ENTRANCE, FOOD COURT
A select representation of historic trophies from numerous Texas athletic achievements and championships over the year will be on display. Take a walk down Trophy Row to celebrate Longhorn athletes at their best.

INTERCOLLEGIATE ATHLETICS

Spirit Station
STD - DARRELL K ROYAL-TEXAS MEMORIAL STADIUM, NEZ GATE 16 ENTRANCE, FOOD COURT
Show your Texas Pride at the Spirit Station and collect posters from some of your favorite Longhorn sports teams.

INTERCOLLEGIATE ATHLETICS

Texas Icon Willie Nelson: Exhibit of a Legendary Performer
STD - DARRELL K ROYAL-TEXAS MEMORIAL STADIUM, NEZ GATE 16 ENTRANCE, FOOD COURT
Stop by to view this exhibit curated by the Dolph Briscoe Center for American History of the legendary musician, Willie Nelson and discover why he has become a Texas icon.

OFFICE OF SUSTAINABILITY

Bleed Orange, Live Green Walking Tour
SAC - STUDENT ACTIVITY CENTER, INFORMATION TABLE ON SPEEDWAY MALL
UT is home to one of the most efficient power plants in the US, millions of square feet of LEED Gold architecture and a restored natural corridor in Waller Creek. See how UT lives green on this self-guided tour: greentour.utexas.edu.

UNIVERSITY HOUSING AND DINING

Almetris Duren Residence Hall Tour
ADH - ALMETRIS DUREN RESIDENCE HALL, FRONT DESK
The Almetris Duren Hall is the newest addition to the university’s residence halls. It is a state-of-the-art facility with a formal lounge and the Texas Rivers Room. Tours will be offered continuously.

ARTS, DESIGN AND MEDIA | BUSINESS, CULTURE AND EDUCATION | ENGINEERING
UNIVERSITY HOUSING AND DINING
Honors Quad Residence Hall Tour
CRD - CAROTHERS HALL, FRONT DESK
The Honors Living Community, comprising four halls in the “Quad” (Andrews, Blanton, Carothers and Littlefield), houses approximately 650 students, most of whom are in one of the university’s undergraduate honors programs. Tours offered continuously.

UNIVERSITY HOUSING AND DINING
Jester West Residence Hall and Garden Tour
JES - BEAUFORD H. JESTER CENTER, JESTER WEST FRONT DESK
Jester Center is one of the nation’s largest residence halls. Jester offers many dining choices and is home to the Texas Cultures Gallery and the Jester Food Garden. Tours will be offered continuously.

UNIVERSITY HOUSING AND DINING
Kinsolving Residence Hall and Garden Tour
KIN - KINSOLVING RESIDENCE HALL, FRONT DESK
Kinsolving is an all-female residence hall on campus. It is home to the Gallery of Texas Women exhibit and the Kinsolving Food Garden. Tours will be offered continuously.

UNIVERSITY HOUSING AND DINING
San Jacinto Residence Hall Tour
SJH - SAN JACINTO RESIDENCE HALL, FRONT DESK
San Jacinto is one of the newest residence halls on campus. Next to the football stadium, this hall offers suite-style rooms as well as large spaces for events. Tours will be offered continuously.

UNIVERSITY OF TEXAS LIBRARIES
Piece Together Poetry
PCL - PERRY-CASTAÑEDA LIBRARY, 2,500
Visit the UT Poetry Center to piece together your own haiku, limerick or sonnet. Play a game of trivia and guess which famous poet is being described. While in the building, you can also take a self-guided tour of the Perry-Castañeda Library.

UNIVERSITY UNIONS: THE TEXAS UNION
Texas Union Underground Glow Bowling
UNB - UNION BUILDING, 1,122
Come to the Union Underground (first floor, north end) for free glow bowling. Availability is limited and on a first-come, first-served basis. There is a limit of one game per person. Billiard tables will also be available.

UNIVERSITY UNIONS: THE TEXAS UNION
Tower Tours
MAI - MAIN BUILDING, WEST ENTRANCE, 1ST FLOOR HALLWAY
Join us for a free half-hour tour to the Top of the UT Tower. Reserve tickets in advance at 512-475-6636 (required) and arrive 15 minutes prior to the tour. Vacancies will be filled 5 minutes before the tour begins. Limit of 10 tickets for large groups.

UNIVERSITY OF TEXAS LIBRARIES
Benson Latin American Collection Open House
SRH - SID RICHARDSON HALL, UNIT 1
The Nettie Lee Benson Latin American Collection is one of the premier libraries in the world for Latin America and Latina Studies and a global destination for research and study. Visit the Benson to see the materials on display in our current exhibitions.

COLLEGE OF NATURAL SCIENCES
Become a Doggy Doctor for a Day
NHB - NORMAN HACKERMAN BUILDING, 1ST FLOOR HALLWAY
If you’ve ever wondered how fast a dog’s heart beats, then join the Pre-Veterinary Association to find out. You’ll be able to hear a dog’s heartbeat by using a stethoscope. Learn more about veterinary medicine and become a doggy doctor for a day.

COLLEGE OF NATURAL SCIENCES
Cracking the Case: The Foundations of Forensic Science
SPEEDWAY MALL
Join student members of Texas Forensics to explore the basic concepts of forensic science. You’ll be able to log the chain of custody, examine paper towel chromatography, conduct latent fingerprint lifting and looking at evidence to crack the case.

COLLEGE OF NATURAL SCIENCES
Create Your Own Fashion Design
GEA - MARY E. GEARING HALL, GREAT HALL
Join members of the University Fashion Group to create your own fashion design. We’ll provide the mannequin, fabric and clips to help you explore your creative side. Learn about fashion design at UT and how we interact with the Austin fashion community.

COLLEGE OF NATURAL SCIENCES
Delicious Liquid Nitrogen Ice Cream
SPEEDWAY MALL
Join members of the Dean’s Scholars and the American Chemical Society for some sweet science while they concoct a tasty treat. You can sample liquid nitrogen ice cream with all your favorite toppings to cool off as you Explore UT.
ongoing events

11 a.m.

college of natural sciences
discovery in molecular biosciences
nhb - norman hackerman building, 1st floor hallway
discover what makes biology exciting and how it relates to everything around you. join students from the american biochemistry, molecular biology and microbiology societies for fun demonstrations and to learn something new about biosciences.

college of natural sciences
disease detectives
gea - mary e. gearing hall, courtyard
join student members of texas public health for a fun investigation into the world of diseases. you’ll be able to make microscope bracelets, play a disease-matching game and learn about smoking prevention and related public health studies.

college of natural sciences
eat this, not that: an exploration of macronutrients
speedway mall
do you know which foods are really healthy? join health occupation students of america (hosa) to learn about macronutrients and how they can help you determine which foods are healthy, which are not, and what happens to them when they enter your body.

college of natural sciences
exploring the human body
speedway mall
join health science scholars to explore the human body. touch, hold and feel real preserved organs. see the damaging effects of smoking on real inflatable lungs and take advantage of easy blood pressure tests for both children and adults.

college of natural sciences
fire ants and their phorid fly foes
nhb - norman hackerman building, 1st floor hallway
meet the tiny flies that attack fire ants and bring grisly consequences: turning their enemies, the fire ants, into zombies. talk to researchers who work with the phorid flies from argentina and learn more about the intended biological results.

1 p.m.

college of natural sciences
fun with fire and the physics of music
speedway mall
nihb - norman hackerman building, 24th street patio
join us for a demonstration of our world-famous ruben’s tube, a standing wave “flame tube,” to learn about the physics of acoustical standing waves and musical harmonics.

college of natural sciences
get hooked on saving lives: free cpr training
speedway mall
sac - student activity center, 2.410, ballroom
cardiopulmonary resuscitation (cpr) is an easy-to-learn first-aid procedure that can literally save a person’s life. join students in alpha epsilon delta, who are working with the american heart association, to learn cpr in this free training session.

college of natural sciences
getting a feel for frogs, fish, and other slimy things
nhb - norman hackerman building, 1st floor hallway
learn more about texas’ amphibians, reptiles, and fish. see and feel preserved specimens including rattlesnakes, salamanders, treefrogs, fish, and sharks from the biodiversity collection. discover how these creatures make their living in texas.

college of natural sciences
healthy habits can be fun
speedway mall
sac - student activity center, 2.410, ballroom
join members of the student organization, texas healthy habits, for a fun interactive program in which you can learn how to develop overall healthy habits. we’ll also provide some basic instruction for first-aid.

college of natural sciences
hula hoop your way into math
speedway mall
sac - student activity center, 2.410, ballroom
learn about the radius, diameter, and circumference of a circle by joining texas interdisciplinary plan community outreach students for a hula hoop challenge. keep your hoop spinning for the longest time to receive the grand prize.

college of natural sciences
it’s a balancing act
gea - mary e. gearing hall, courtyard
test your problem-solving skills and challenge yourself to think outside the box. see if you can find a solution to the problem of how to successfully balance multiple items on top of one other item.

2 p.m.

college of natural sciences
look at venus, look at the sun
rlm - robert lee moore hall, rooftop
join astronomy staff and students to view venus using a 16” telescope, or to safely look directly at the sun using smaller telescopes (weather permitting). additional demonstrations will take place throughout the day.

college of natural sciences
making homemade silly putty
speedway mall
nihb - norman hackerman building, 24th street patio
create your very own homemade silly putty in an experiment that is quick, fun, and uses only simple household materials. explorers of all ages will love this quick introduction to science from the natural sciences council.

college of natural sciences
marbling science and creativity
gea - mary e. gearing hall, courtyard
create beautiful marbled art with everyday materials such as shaving cream, food coloring and paper. join staff and students from priscilla pond flawn child and family laboratory for a fun, hands-on experience to learn the science behind the creations.

college of natural sciences
marine science touch tanks: touch live marine animals
nhb - norman hackerman building, 1st floor hallway
join the department of marine science and the marine science club to explore the wonderful and unique things that live in the seas. view a collection of organisms and discover the amazing characteristics of each one.

college of natural sciences
mathematical adventures
speedway mall
sac - student activity center, 2.410, ballroom
join mathematics students on this adventure to explore the power of your mathematical skills. you’ll discover how fun math can be while solving puzzles and playing fun, interactive games.

college of natural sciences
meet the pollinators and pests: social bees and aphids
nhb - norman hackerman building, 1st floor hallway
explore how honey bees, humble bees and aphids affect our lives, from the food we eat to what they can tell us about bacteria. see live bees and aphids, and play a game about what these busy bugs are up to.

(continued)

11 a.m. to 4:40 p.m.

college of natural sciences
look at venus, look at the sun
rlm - robert lee moore hall, rooftop
join astronomy staff and students to view venus using a 16” telescope, or to safely look directly at the sun using smaller telescopes (weather permitting). additional demonstrations will take place throughout the day.

college of natural sciences

college of natural sciences
meet the pollinators and pests: social bees and aphids
nhb - norman hackerman building, 1st floor hallway
explore how honey bees, humble bees and aphids affect our lives, from the food we eat to what they can tell us about bacteria. see live bees and aphids, and play a game about what these busy bugs are up to.
**College of Natural Sciences**

**Mystery Ingredients in Baked Goods: The Nutritional Benefits**

GEA - MARY E. GEARING HALL, COURTYARD

Join members of the Coordinated Program in Dietetics to sample baked goods and guess what the mystery ingredients are in each. Parents will also learn new delicious recipes that can be made with nutritious and beneficial ingredients.

**Natural Sciences Information Table**

SPEEDWAY MALL

Stop by the Natural Sciences information table for assistance finding a specific program within the college or with general questions. We’ll have temporary tattoos to help you remember the day.

**New Nutrition Alternatives: Goji Berries and Crickets**

GEA - MARY E. GEARING HALL, COURTYARD

Have you ever tried eating goji berries or crickets? Join student members of Texas Nutrition to try these exotic foods that are enjoyed around the world. You'll learn about the nutritional value of these foods and their role in the world's food security.

**Particles From Space**

RLM - ROBERT LEE MOORE HALL, 15.216B

Use a tried-but-true piece of equipment called a "cloud chamber" to see and examine fundamental particles from space that rain down on us all the time. You'll learn about the properties of fluid and other basic concepts of physics.

**Phun with Physics**

SPEEDWAY MALL

Join members of the student organization Undergraduate Women in Physics for fun interactive demonstrations that will explore the properties of fluid and other basic concepts of physics.

**Picture Yourself at UT**

GEA - MARY E. GEARING HALL, COURTYARD

Picture the UT Tower in the background with you front and center: a photo for the ages. Take a keepsake photo of your group from the unique perspective of the Gearing Hall courtyard to help you remember the day.

**Pin the Organ on the Pre-Physician Assistant**

SPEEDWAY MALL

Stop by to learn more about becoming a Physician Assistant (PA) and the anatomy of the human body in a fun and interactive way. Discover the differences between a medical doctor and PA and expand your knowledge about the profession.

**Puzzling Communication**

Communication can sometimes be challenging. Discover new approaches to conquer those challenges and practice your communication skills with family and friends by working together on a puzzle.

**Re-Explore UT: College of Natural Sciences Alumni Lounge**

WEL - ROBERT A. WELCH HALL, 2.140

Back on campus and nostalgic for your own days as a student? Stop by the College of Natural Sciences alumni lounge for coffee, water and light snacks throughout the day (while supplies last), as well as a quiet spot for parents and kids to relax.

**Spinning the Wheel of Health**

Join students in the Black Health Professions Organization to play Wheel of Health. You’ll learn about dynamic systems in the human body and discover other information such as the total number of bones in the body and the origin of oxygenated blood.

**Star Wars: Attack of the Immune System**

SAC - Student Activity Center, 2.410, Ballroom

This circus is a fun science show that demonstrates the most important elements of physics including angular momentum, waves and gravity. Join us for this fun, interactive demonstration of physics.

**Super Tips for Dental Care**

Join student members of the Texas Pre-Dental Society and have fun discovering how you can improve your personal hygiene routine. You’ll also learn helpful tips to maintain super healthy dental habits.

**Texas Interdisciplinary Plan: TIP Scholars Challenge**

View a live insect zoo, including a UT favorite, the Texas longhorn beetle. Explore numerous natural history specimens from UT’s research holdings and meet the people behind the science.

**The Cool Concepts of Astronomy**

Join members of the Astronomy Students Association for astronomy and physics demonstrations that will show cool scientific concepts and explain how they relate to learning about the cosmos.

**The Joys of Research: Exploring the Work of Student Researchers**

Join the Council of Graduate Chemists to present and explain some of the exciting work of student researchers. You’ll learn about dynamic systems in the human body and discover other information such as the total number of bones in the body and the origin of oxygenated blood.

**Texas Longhorn Beetles and Bugs**

NHB - NORMAN HACKERMAN BUILDING, 1ST FLOOR HALLWAY

Explore numerous natural history specimens from UT’s research holdings and meet the people behind the science.

**The Largest and Most Famous Collection of Exotic Living Algae in the World**

View an amazing array of living algae collected from all over the world in a striking range of colors, shapes and sizes. Learn about cultivation of algae for food, health products and biofuels. Find out how edible algae tastes.

---

LONGHORN LIFE | PUBLIC SERVICE | SCIENCE

THE UNIVERSITY OF TEXAS AT AUSTIN 41
ongoing events

college of natural sciences

TriBeta: An Informational Panel on the National Biological Honor Society
Speedway Mall
SAC - Student Activity Center, 2.410, Ballroom
Learn about Beta Beta Beta Biological Honor Society (Tribeta), a nationally recognized honor society for those interested in biological sciences. Meet diverse students with varying biology majors who focus on volunteer, social, and research opportunities.

college of natural sciences

Why Water Alone Isn’t Enough to Stop Germs
Speedway Mall
SAC - Student Activity Center, 2.410, Ballroom
Join student members of Women in Medicine for an experiment to explore how germs scatter. You’ll discover the importance of washing your hands with soap and learn the scientific reasons why washing them with water alone isn’t enough to stop the germs.

11 a.m.

College of Natural Sciences: Computer Science

Autonomous Intelligent Robots
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, Atrium
Join Professor Peter Stone to experience Visualization Experience. Discover how the lab technology allows us to simulate real-world environments that are not humanly possible.

1 p.m.

College of Natural Sciences: Computer Science

Board Games with the Association of Black Computer Scientist
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 3rd Floor Atrium Bridge
Join student members of the Association of Black Computer Scientists to play board games and learn more about computer science. You’ll have a chance to ask the students questions and hear more about their experience in the program.

2 p.m.

College of Natural Sciences: Computer Science

Computational Intelligence in Design
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 2.402
Join Professor Cem Tutun in the Artificial Intelligence Lab to learn about the interesting applications of artificial intelligence techniques in video games, engineering design optimization and 3-D printing applications.

3 p.m.

College of Natural Sciences: Computer Science

Discovering Your Inner Computer Scientist
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 3rd Floor Atrium Bridge
Join us to learn about logic and computer science. Discovering Your Inner Computer Scientist is a lesson for young aspiring computer scientists to learn about the different aspects of computer science.

4 p.m.

College of Natural Sciences: Computer Science

Graph Paper Programming
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 3rd Floor Atrium Bridge
Join members of Freetail Hackers, a student hackathon group, to learn the basics of programming and algorithms in a fun and easy way. Participants will challenge each other to color squares on graph paper in an effort to reproduce an existing picture.

College of Natural Sciences: Computer Science

Inside the Vislab: A Data Analysis Visualization Experience
POB - Peter O'Donnell Jr. Building, 2.102
Join Professor Chandrajit Bajaj to experience the state-of-the-art computer technology in the Visualization Laboratory, a virtual reality lab. Discover how the lab technology can literally help scientists visualize things that are not humanly possible.

College of Natural Sciences: Computer Science

Programming the Next Generation
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, Atrium
Discover what a web application can really do in this demonstration by Alan Ma from the Association for Computing Machinery. Learn about the incredible tools available to computer scientists as they prepare to program the world for the next generation.

College of Natural Sciences: Computer Science

Project Illuminate
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 2.210
Join Dr. Alison Norman for this fun and illuminating activity. Learn to control flashing, color-changing LED lights using a computer and an Arduino board. You’ll discover how to program the lights to do what you want them to do.

College of Natural Sciences: Computer Science

RoboCup Teams in Action
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, 3.436
Join Professor Peter Stone and student programmers to experience the UT Austin Villa Robot Soccer Teams of humanoid robots in action. You’ll learn how computer code teaches these robots to strut their stuff on the soccer field.

College of Natural Sciences: Computer Science

Stop Germs
SAC - Student Activity Center, 2.410, Ballroom
Learn about the incredible tools available in this demonstration by Alan Ma from the Association for Computing Machinery. Discover what a web application can really do in this demonstration by Alan Ma from the Association for Computing Machinery. Learn about the incredible tools available.

College of Natural Sciences: Computer Science

Why Water Alone Isn’t Enough to Stop Germs
SAC - Student Activity Center, 2.410, Ballroom
Join student members of Women in Medicine for an experiment to explore how germs scatter. You’ll discover the importance of washing your hands with soap and learn the scientific reasons why washing them with water alone isn’t enough to stop the germs.

(continued)

11 a.m. to 4:40 p.m.

College of Natural Sciences: Computer Science

Create Algorithms with Women in Computer Science
GDC - Bill and Melinda Gates Computer Science Complex and Dell Computer Science Hall, Atrium
Join students in the Women in Computer Science (WiCS) program to solve problems using algorithms that you create. You can learn more about computer science and what WiCS does to promote diversity and inclusion in the technology field.
safari to learn how to take a friend’s blood pressure, discover secrets of the ear using an electronic model and other exploratory activities.

SCHOOL OF NURSING
Advancing Health Care Strategies: How Nursing Science Improves Lives
NUR - NURSING SCHOOL, 2ND FLOOR COURTYARD
Join undergraduate School of Nursing Honors students to learn how their research is changing health care strategies so that more people can enjoy a better quality of life.

SCHOOL OF NURSING
Anatomy of a Wound: A Fun Simulation of a Serious Condition
NUR - Nursing School, 2nd Floor Lobby
Wounds are serious but learning about them can be fun. Join us to learn how to make a simulated moulage wound that you can wear throughout the day. Before you leave, we’ll provide instruction for immediate first aid care in the event you had a real wound.

SCHOOL OF NURSING
Creating a Bully-Free Zone at School and at Play
NUR - Nursing School, 5th Floor Lobby
A bully can cause the loss of self esteem and affect one’s ability to learn and be successful in school and life. Learn strategies and tips to identify and successfully deal with bullying or disrespectful behavior by others.

SCHOOL OF NURSING
Experience the Sounds Inside Your Body
NUR - Nursing School, 4th Floor Lobby
Health screenings are explorations of unknown information so join us on this
ongoing events

(continued)

11 a.m. to 4:40 p.m.

School of Nursing
Getting On a Healthy Roll
NUR - Nursing School, Courtyard
Roll the dice to learn about good health. Depending upon the number, you can literally and physically roll with the dice and compete with your friends to discover how to get and stay healthy. Physical activity on tumbling mats may require adult consent.

School of Nursing
Have Germs, Will Travel
NUR - Nursing School, 1st Floor Lounge
Find out if germs can remain with you even after you've washed your hands, you may be surprised what travels with you. Discover the importance of washing your hands properly, and practice hand-washing as if you were scrubbing for surgery.

School of Nursing
How to Succeed in Nursing School
NUR - Nursing School, Courtyard
Learn about the day in the life of a nursing student by talking with current students who are members of undergraduate student nursing organizations about their experiences in nursing school. Discover what it requires to be successful.

School of Nursing
It's a Jungle (of Food Choices) Out There
NUR - Nursing School, Courtyard
This interactive display and presentation will help you make healthy choices when selecting food in the school cafeteria, at the mall, and in food courts. Don't get lost in the jungle, discover ways to alter not-so-healthy habits and make sound choices.

School of Nursing
Meet the Sim Family: Caring for Droids
NUR - Nursing School, 4.106
Meet the Sim family, Hal, Victoria and their new baby, Hal Junior. Take a guided tour of the Simulation Lab and discover how nursing students learn to care for people by practicing on these high tech patient droids.

School of Nursing
My Body On Drugs
NUR - Nursing School, 5.102
Test your knowledge of how your body responds to the use of common street drugs through short interactive quizzes. Learn about strategies and resources that can help you talk with others about protecting yourself from drug use and abuse. 

School of Nursing
Perform an IV Push Like a Professional
NUR - Nursing School, 4.118
Learn how to safely prepare and deliver medication through an intravenous (IV) push. Master the skills to calculate appropriate medication dosages, pull the correct amount from a vial, remove the air, and push the solution into the IV. Space is limited.

School of Nursing
Preparing for a Safe and Fun Spring Break
NUR - Nursing School, Courtyard
Learn how to have fun over spring break, whether you choose to enjoy it in the water, at the beach, camping or at home in your own back yard.

School of Nursing
Saving Lives Through Cardiopulmonary Resuscitation (CPR)
NUR - Nursing School, 1st Floor Hallway
Join us to learn the emergency life saving procedures for performing hand-only CPR or operating an automatic external defibrillator (AED). Practice doing chest compressions at the right speed so if needed in an emergency, you can help someone stay alive.

School of Nursing
Sorry, INever Understood the Challenges
NUR - Nursing School, 5.102
Discover daily life for others who do normal activities under challenging circumstances by experiencing what it’s like to have difficulty seeing or maintaining balance. Try on the “empathy belly” to see what it feels like to do activities while pregnant.

School of Nursing
The Anatomy of a Virus
NUR - Nursing School, Courtyard
Viruses are small infectious agents that replicate inside of living cells and organisms. Join us for a fun, interactive game to identify and connect common viruses with their structural characteristics and resultant health conditions.

School of Nursing
This Is Not a Test: Preparing for an Emergency
NUR - Nursing School, Court Yard
Learn how to prepare for various types of natural emergencies and whether or not your family is ready for an emergency. Discover how to create an emergency “bug out” kit and receive printed emergency preparation information from the American Red Cross.

Texas Memorial Museum
Barron Mineral and Gem Exhibit
TMM - Texas Memorial Museum, 2.100
Visit this unique display of 140 specimens collected from all over the world by the late Col. E.M. Barron (1903-1969), a former Texas legislator who also served under General Douglas MacArthur in Australia during World War II.

Texas Memorial Museum
Buzz Saw Sharks of Long Ago
TMM - Texas Memorial Museum, 4.114
Explore Helicoprion, a whorl-toothed shark that swam the ancient seas 270 million years ago. Enjoy a unique combination of science, art and humor that offers something for the whole family—fossils, original artwork by Ray Troll and life-sized sculptures.

Texas Memorial Museum
Deep Time in Texas
TMM - Texas Memorial Museum, 1st Floor Exhibits
Explore our Hall of Geology and Paleontology featuring fossil dinosaurs and other prehistoric creatures, meteorites and rocks. Stop by the Paleo Lab to talk with a paleontologist while seeing how fossils are properly prepared, catalogued and studied.

Texas Memorial Museum
Fossil Identifications
TMM - Texas Memorial Museum, 1st Floor Paleo Lab
Bring your fossil finds to the Paleo Lab for identification by a paleontologist. Learn about the science of paleontology, and how fossils are important for our understanding of biodiversity and environmental change.

Texas Memorial Museum
Hall of Texas Wildlife
TMM - Texas Memorial Museum, 3rd Floor Exhibits
Join us to see exhibits that highlight wildlife in numerous regions of Texas. You’ll be able to experience the regions through dioramas that include mounted specimens of Texas birds, mammals, reptiles and amphibians.
Noon to 2:40 p.m.

**COLLEGE OF EDUCATION**

**Shattering Science**
SZB - GEORGE I. SÁNCHEZ BUILDING, PLAZA

One of the best things about learning to be an amazing science teacher is conducting hands-on experiments. Join student members of the Education Council for a demonstration of liquid nitrogen’s shattering power using flowers and more.

---

**Noon to 3:40 p.m.**

**HARRY RANSOM HUMANITIES RESEARCH CENTER**

**Explore the Process of Printing**
HRC - HARRY RANSOM CENTER, 1ST FLOOR LOBBY

Join us to learn more about the origins of printing. You’ll be able to take a look at a rare Gutenberg Bible, the first book printed with movable type. You can also watch live printing demonstrations in the lobby.

---

**11 a.m.**

**LONGHORN LIFE | PUBLIC SERVICE**

**Winged Wonders**
TMM - TEXAS MEMORIAL MUSEUM, 3RD FLOOR EXHIBITS

Join us to see the wonderful diversity of insect wings and colors and learn how flight has played a key role in the success of the most dominant group of animals on the planet.

---

**1–2:40 p.m.**

**SCHOOL OF ARCHITECTURE**

**Create Your Own Cyanotype**
SUT - SUTTON HALL, 1108

Discover the process involved in creating a cyanotype print, a procedure discovered more than 175 years ago to create architectural blueprints. You’ll learn how to create your own sample print using a time-tested process and simple materials.

---

**1–3:40 p.m.**

**4COLLEGE OF EDUCATION**

**The Science of Rising: Experimenting with Yeast**
SZB - GEORGE I. SÁNCHEZ BUILDING, 370

The natural reaction between yeast, sugar and water is important to the process of baking bread but can also inflate a balloon. Join us for an experiment utilizing balloons to learn the powerful and “rising” scientific properties of yeast.

---

**2 p.m.**

**UNIVERSITY OF TEXAS LIBRARIES**

**Architecture and Planning Library Open House**
BTL - BATTLE HALL, 200

Visit the Architecture and Planning Library to see its historic reading room and an exhibit featuring materials from the Alexander Architectural Archive.

---

**3 p.m.**

**UNIVERSITY OF TEXAS LIBRARIES**

**The Foundry Open House**
DFA - E. WILLIAM DOTY FINE ARTS BUILDING, 3.200, THE FOUNDRY

Explore your curiosity at the Foundry, a maker space designed to encourage creativity through the use of technology. Play Pictionary or draw using a Cintiq drawing tablet that will be displayed on the video wall. You can also see 3-D printing in action.

---

**3 p.m.**

**UNIVERSITY OF TEXAS LIBRARIES**

**Khuene Physics Mathematics Astronomy Library Open House**
RLM - ROBERT LEE MOORE HALL, 4.200

UT scientists and students depend on scholarly information to conduct their work in physics, mathematics and astronomy. Visit the Khuene Library, a gateway to electronic and printed information these researchers use every day.

---

**4 p.m.**

**UNIVERSITY OF TEXAS LIBRARIES**

**Life Science Library Open House**
MAI - MAIN BUILDING, 220

The UT Tower was built primarily as a library and the historic reading rooms in this old Main Library have been a sanctuary for countless students over the years. Stop by to relax and absorb the scholarly ambiance. www.lib.utexas.edu/lsl

---

**ONGOING EVENTS**

**THE UNIVERSITY OF TEXAS AT AUSTIN**

**Blood Pressure Screening**
SZB - GEORGE I. SÁNCHEZ BUILDING, PLAZA

The American Heart Association announced recent changes to guidelines for healthy blood pressure. Join students in the Health Promotion Club for a free blood pressure screening and to learn heart-healthy information on maintaining low blood pressure.

---

**Quantum Computing: A Crash Course**
EER - ENGINEERING EDUCATION AND RESEARCH CENTER, 0.708

Quantum computing is popping up everywhere in the news. Come chat with members of the Quantum Computing Initiative and learn how quantum computers are different. You can test quantum programs and get up-to-date information on the latest developments.
Explore UT Class Photo

As the grand finale for Explore UT, you can make history and star in the annual class photo. For the 2018 event, university photographer Marsha Miller will take a picture of participants gathered in a special formation. After the photo, enjoy free Amy’s Ice Cream (while supplies last). A free digital file of the photo will be available for download on the Explore UT website following the event. Join us at 5 p.m. at the Tower for the Explore UT 2018 class photo.
